Abbreviations	Description
WDV	Written Down Value
DMA	Director of Municipal Administrator
ULB	Urban Local Body

2 Scope

The scope of work is to implement an integrated system for the various services of the urban local bodies situated in the state of Maharashtra. The Municipal Corporations of Thane, Mumbai, Nagpur, Nashik, Pune and Pimpri Chinchwad are excluded from the scope of work.

The scope includes the following:

- software/solution development and implementation
- deployment of solution centrally on cloud
- implementation and maintenance of the system including the support required for cloud hosting at DC
- Firstly, the solution should be hosted in Tier-3 data centre for 2 years after GO-Live, and then shall be shifted to State Data Centre of Govt of Maharashtra.
- Key Processes for Property Tax
 - o Land Asset
 - o Immovable Asset
 - o Movable Asset
 - o Generate Depreciation
 - o Revaluation of Asset
 - o Transfer / Disposal of Asset

The system will have 3 interfaces which will allow the user to perform various functions:

- ULB Interface which will allow ULB Officials to perform various tasks in the system

3 Introduction to Asset Management System

The word Assets is used to indicate capital goods purchased by the ULB for use in the production process over a period of several years. Assets are therefore capital goods that are used by the business to produce other goods, remaining part of the ULB for long periods of time. Examples of such assets are plant and machinery, cars, computers, buildings, etc. (which are tangible assets), as well as patent rights, software, etc. (which are intangible assets).

The cost of such assets is not deducted in full during the period when they are bought, but is spread over time based on tables prepared by the Finance Ministry for tax purposes. The process of spreading the cost of fixed assets is known as Depreciation (which includes the amortization of intangible fixed assets).

ULBS are required to keep an Asset Register. In its classic form, this register is made up of a number of pages, one for each asset purchased. Each page is therefore headed up with the description of a particular asset and shows all of the movements affecting that asset over time: from its purchase, through its depreciation, to when it is disposed of. The purpose of this manual is to provide users with all of the information they need to make best use of the "ASSETS" module in Super Strike.

4 How to start using this portal

On Google Chrome, type the following address to access the Application

URL: <http://103.249.96.234:8080/MahaULBDev/> (Development URL)

The following home page will appear

Note: Provision is given by the system to select the language; user can select either Marathi or English from “**Choose language**” option

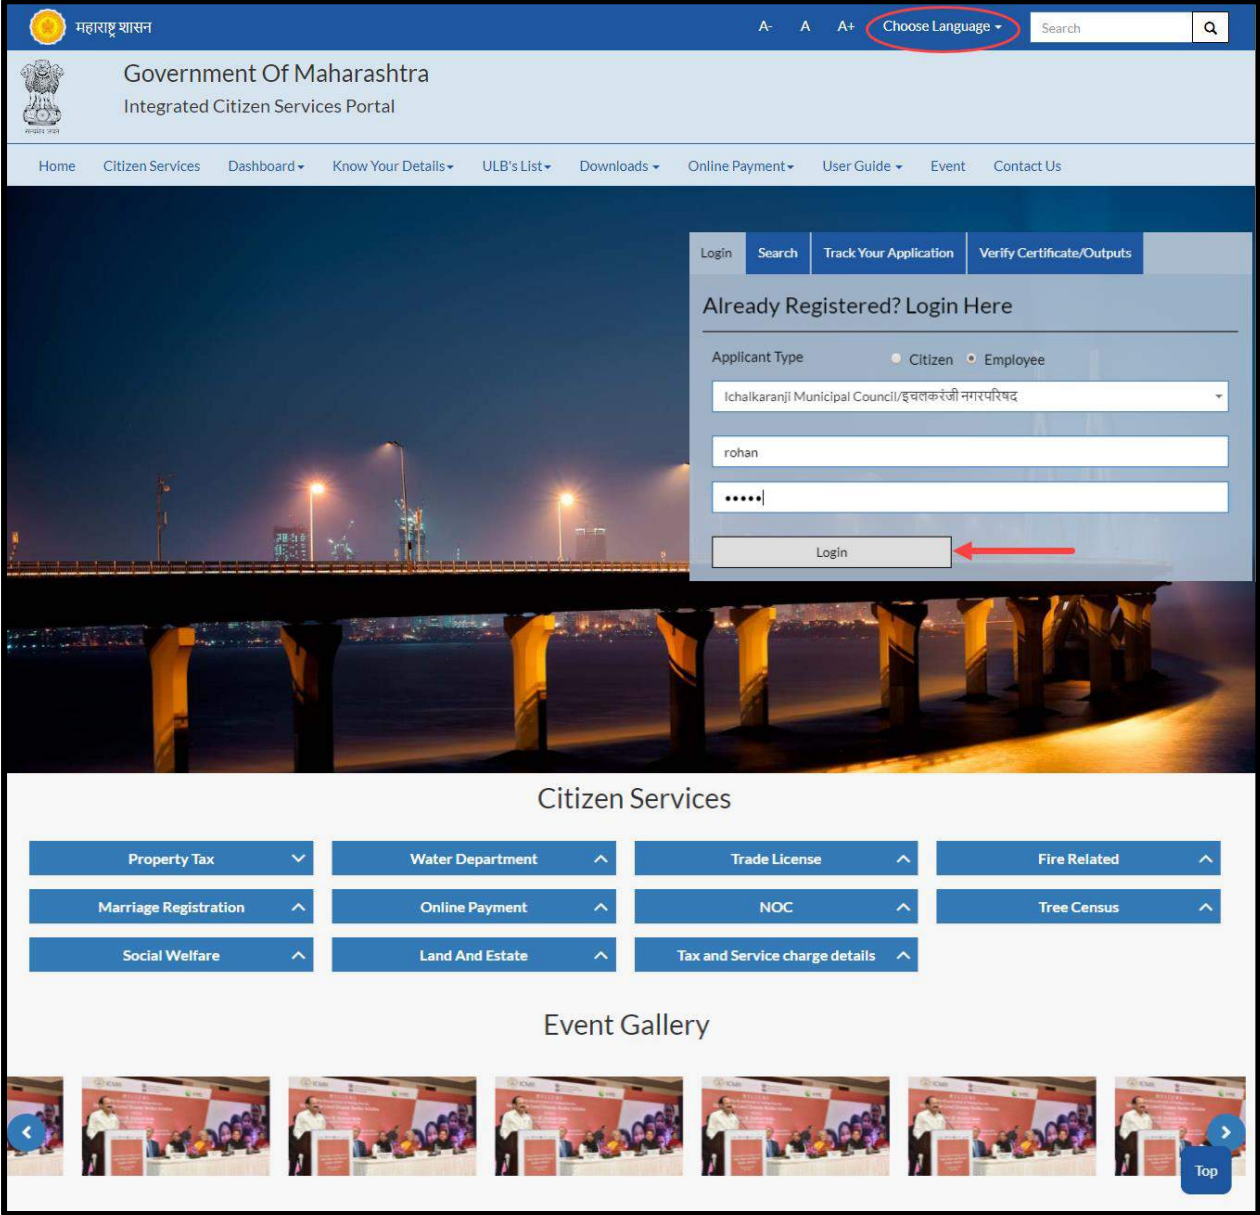

The screenshot displays the Government of Maharashtra Integrated Citizen Services Portal. The header includes the state emblem and the text 'महाराष्ट्र शासन' (Government of Maharashtra) and 'Government Of Maharashtra Integrated Citizen Services Portal'. A navigation bar contains links: Home, Citizen Services, Dashboard, Know Your Details, ULB's List, Downloads, Online Payment, User Guide, Event, and Contact Us. The main content area features a login section titled 'Already Registered? Login Here' with a 'Choose Language' dropdown menu. Below the login section is a 'Citizen Services' section with buttons for Property Tax, Water Department, Trade License, Fire Related, Marriage Registration, Online Payment, NOC, Tree Census, Social Welfare, Land And Estate, and Tax and Service charge details. At the bottom is an 'Event Gallery' with a series of images and navigation arrows.

4.1 Login Process

4.1.1 Registered Citizen/Employee:

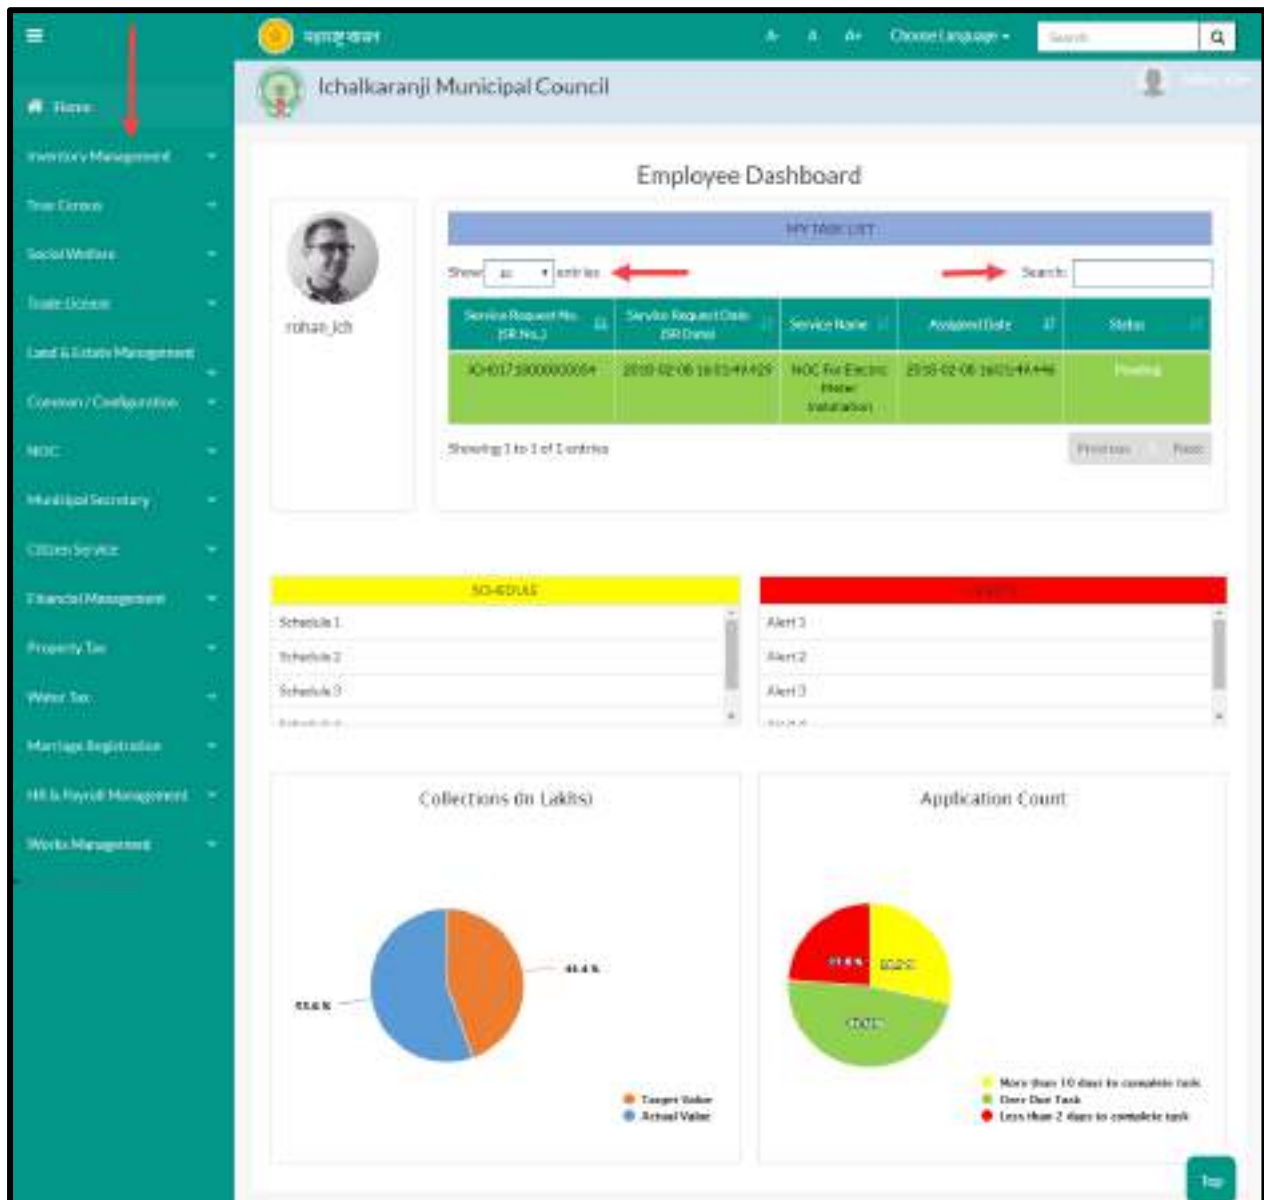

User need to select any one option according to the applicant type, if user is citizen then select "**Citizen**" and if user is employee then select "**Employee**"

Enter the login ID and password as provided and click on "**Login**" button.

Note: For citizen login, provision is not given to select the ULB whereas for employee login it is mandatory to select the ULB name.

Follwing screen will appear after sucessful login of Employee

- Employee can view all the modules for which user is having rights in the application on left hand side of the screen as highlighted in above screen
- The count of services displayed in grid of "My Task list" can be changed using "**show**" option.
- "**Search**" option is used to search a service amongst a number of service request present in grid.
- The pie charts present at the bottom give the graphical representation of applicant count and collections (In lakh)

Below is the color significance for both the pie charts

➤ **Collection (In Lakhs)**

- Blue color – Target Value

- Orange Color – Actual Value

➤ **Application Count**

- Green color – Over due task
- Red Color – Less than 2 days to complete task
- Yellow Color - More than 10 days to complete task

4.1.2 Non Registered Citizen:

If user is a non registered citizen then user can create the account by clicking **“Register here”** option as shown in below screen

The screenshot displays the Government of Maharashtra Integrated Citizen Services Portal. The header includes the state emblem, the text 'महाराष्ट्र शासन' (Government of Maharashtra), and navigation links for Home, Citizen Services, Dashboard, Know Your Details, ULB's List, Downloads, Online Payment, User Guide, Event, and Contact Us. A search bar is located in the top right corner. The main content area features a login section with the heading 'Already Registered? Login Here'. Below this, there are radio buttons for 'Citizen' and 'Employee', followed by input fields for 'Mobile Number / Login Id' and 'Password'. A 'Login' button is present, and a 'Register Here' button is highlighted with a red rectangle. A red arrow points to the 'Login Here' text. A 'Forgot Password?' link is also visible. Below the login section, there is a 'Citizen Services' section with a grid of buttons for various services: Property Tax, Water Department, Trade License, Fire Related, Marriage Registration, Online Payment, NOC, Tree Census, Social Welfare, Land And Estate, and Tax and Service charge details. At the bottom, there is an 'Event Gallery' section showing a series of event photos.

When clicked on **“Register Here”** option, below registration form is been displayed by the system

The screenshot shows a web browser displaying the 'Government Of Maharashtra Integrated Citizen Services' portal. A 'Create Account' modal form is overlaid on the page. The form contains the following fields and labels:

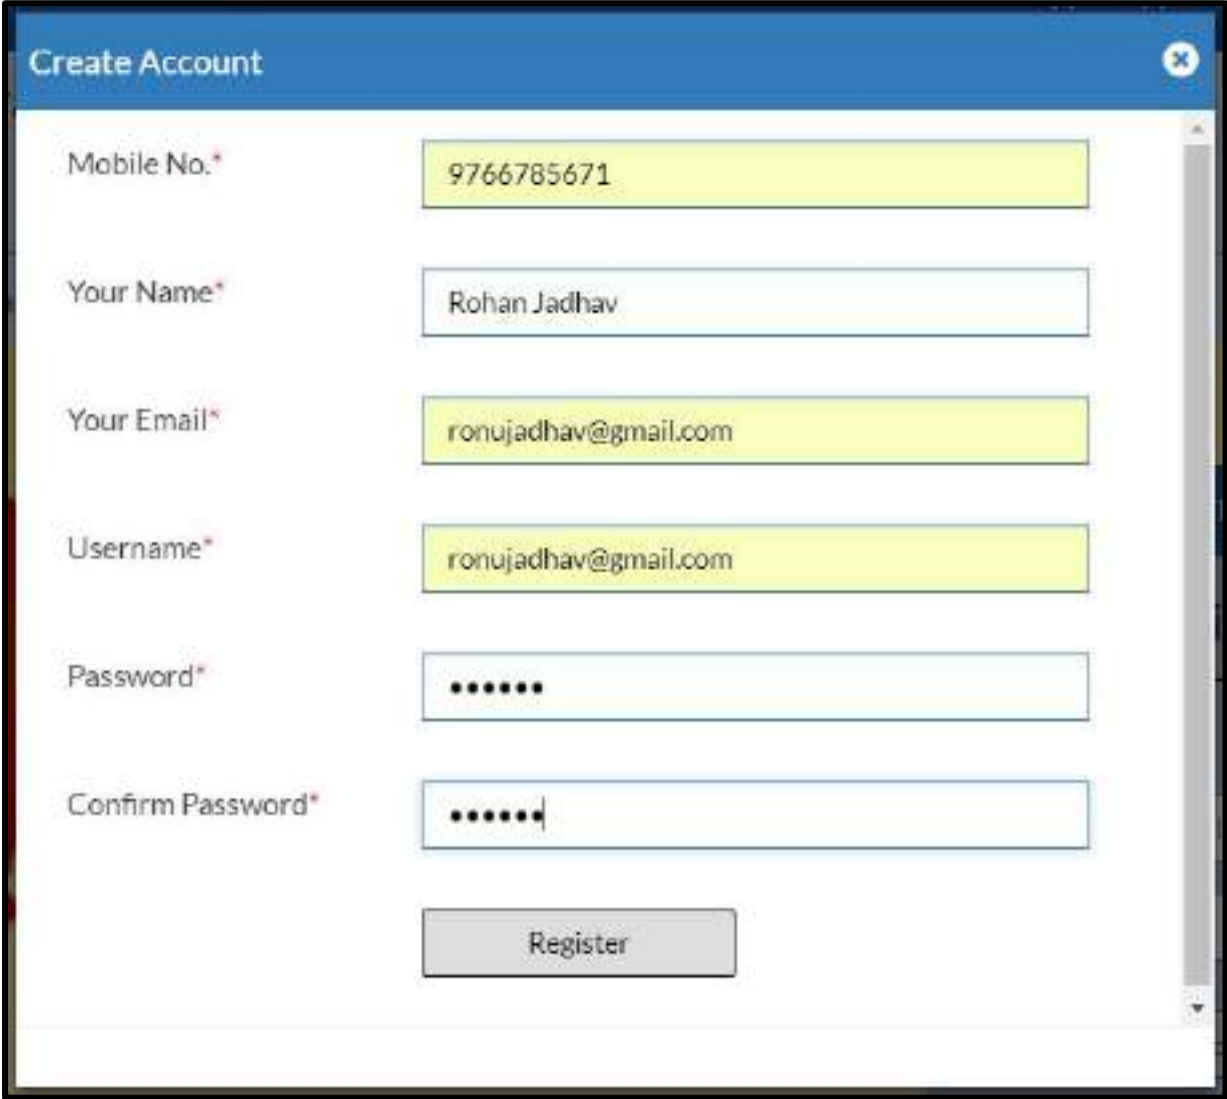

- Mobile No.*: Enter your Mobile No.
- Your Name*: Enter your Name
- Your Email*: Enter your Email
- Username*: Enter your Username
- Password*: Enter your Password
- Confirm Password*: Confirm your Password

A red arrow points to the 'Register' button at the bottom of the form. In the background, a 'Login Here' section is visible with fields for Email and Password, and a 'Login' button.

Below is the description of all the fields present on form

Sr. No	Field Name	Description
1.	Mobile No.	Enter your mobile number
2.	Your Name	Enter your name
3.	Your Email	Enter your Email Id
4.	Username	Enter Username
5.	Password	Enter Password
6.	Confirm Password	Confirm password by re-entering the password

Below screen with entered data is for your reference

A screenshot of a web application's 'Create Account' form. The form is titled 'Create Account' in a blue header bar with a close button (X) in the top right corner. Below the header, there are six input fields arranged vertically. The first four fields (Mobile No., Your Name, Your Email, and Username) have yellow backgrounds and contain the text '9766785671', 'Rohan Jadhav', 'ronujadhav@gmail.com', and 'ronujadhav@gmail.com' respectively. The fifth field (Password) and the sixth field (Confirm Password) have white backgrounds and contain six dots, indicating masked text. Below the input fields is a grey 'Register' button. The entire form is enclosed in a thin black border.

Post entering all the details, click on **"Register"** option

When clicked on register option , OTP generation message will be sent to your registered mobile no.

Screen currently not available

"Your one time OTP is : 1459, and is valid for 30 minutes. This OTP is to be used for the register process"

message will be received on your registered mobile no. Once the OTP is received , user have to enter the OTP in **"confirm OTP"** field and click on **"confirm"** option.

Note: while entering the OTP **"Register"** option is disabled

Refer the below screen for entering the OTP

The screenshot shows a 'Create Account' form with the following fields and values:

Field	Value
Mobile No.*	9766785679
Your Name*	Rohan Jadhav
Your Email*	ronujadhav@gmail.com
Username*	ronujadhav@gmail.com
Password*	
Confirm Password*	
Register	Register
Confirm OTP	1459
Confirm	Confirm

A red arrow points to the 'Confirm' button.

Now when clicked on "**Confirm**" option, citizen will be redirected to the Citizen Registration page as shown below

The screenshot shows the 'Integrated Citizen Services Portal' with a navigation bar at the top. The main heading is 'Citizen Registration'. Below it, there is a form titled 'Registration Details'. The form contains the following fields:

- Aadhaar No.: 5481100548
- Full Name: Rohan Jadhav
- Mobile No.: 9784766426
- Email ID: rohan.jadhav@gmail.com
- PAN Number: QWRRP1234Q
- Correspondence Address: Keshavnagar, Plot, Sector 1, Gurgaon, Haryana
- Permanent Address: Keshavnagar, Plot, Sector 1, Gurgaon, Haryana

At the bottom of the form, there are two buttons: 'Reset' and 'Add'. Red arrows point to both buttons.

Below is the description of all the fields present on form.

Sr. No	Field Name	Description
1.	Aadhaar No	Enter Aadhaar number
2.	Full Name	Full name will be displayed by the system
3.	Mobile No.	Mobile number will be displayed by the system
4.	Email ID	Email ID will be displayed by the system
5.	PAN Number	Enter PAN number
6.	Correspondence Address	Enter Correspondence Address
7.	Permanent Address	Enter Permanent Address

Post entering all the details, click on “**Add**” option to successfully add the details in the system. When clicked on “add” option citizen will be redirected to the home page as shown below

“**Reset**” option is used to clear the entered data on form

Following screen will be displayed after successful login/Registration of Citizen

- Citizen can upload/change profile picture by clicking on “**Upload/Change profile pic**” option
- On-going activities of citizen are listed in “**Citizens Activity List**” section
- All the pending payments are displayed in a grid under “**Pending Schedule**” section
- Any application related notification will be displayed under “**Notification**” section
- “**Help**” section will contain a pdf file, wherein bifurcation will be done on basis of module and service explanation will be mentioned module wise.

- Feedback related to any service can be written in “**Register your Feedback**”

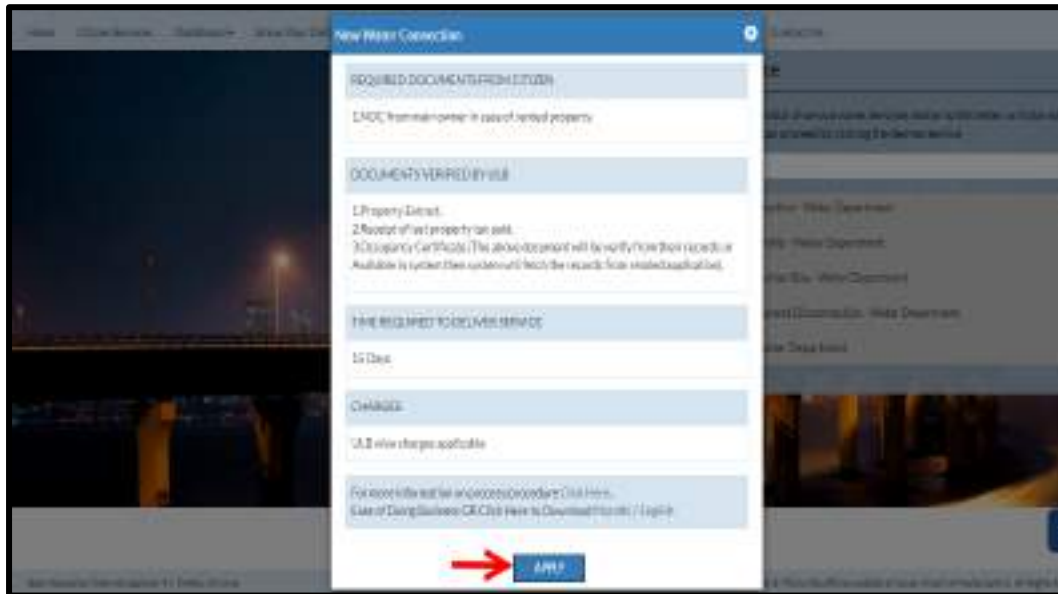

4.2 Search

Search option is used to search a service by typing the initial letters of the service or any random letter. Service similar to the entered letters will be displayed in the dropdown.

Refer below screen,

On clicking any of the service listed in the dropdown, “**Apply**” page will be displayed by the system. User can directly apply for a service using this option

The screenshot shows a web application interface for 'New Asset Connection'. The form is divided into several sections:

- REQUIRED DOCUMENTS FROM EDITION:** Includes a text field for 'ENOC, from main owner in case of rented property'.
- DOCUMENTS VERIFIED BY URB:** Includes a list of items: '1. Property Deed', '2. Receipt of rent property rent', and '3. Occupancy Certificate (This document will be verified from their record in Aadhar is system then system will fetch the records from linked application)'. There is a 'Verify' button next to the list.
- TIME REQUIRED TO COMPLETE SERVICE:** Includes a text field for '15 Days'.
- CHARGES:** Includes a text field for 'ULB will charge applicable'.
- Footer:** Includes a link 'For more information on our services click here' and a link 'Link of Using Business CR Click here to Download the file / Login'.

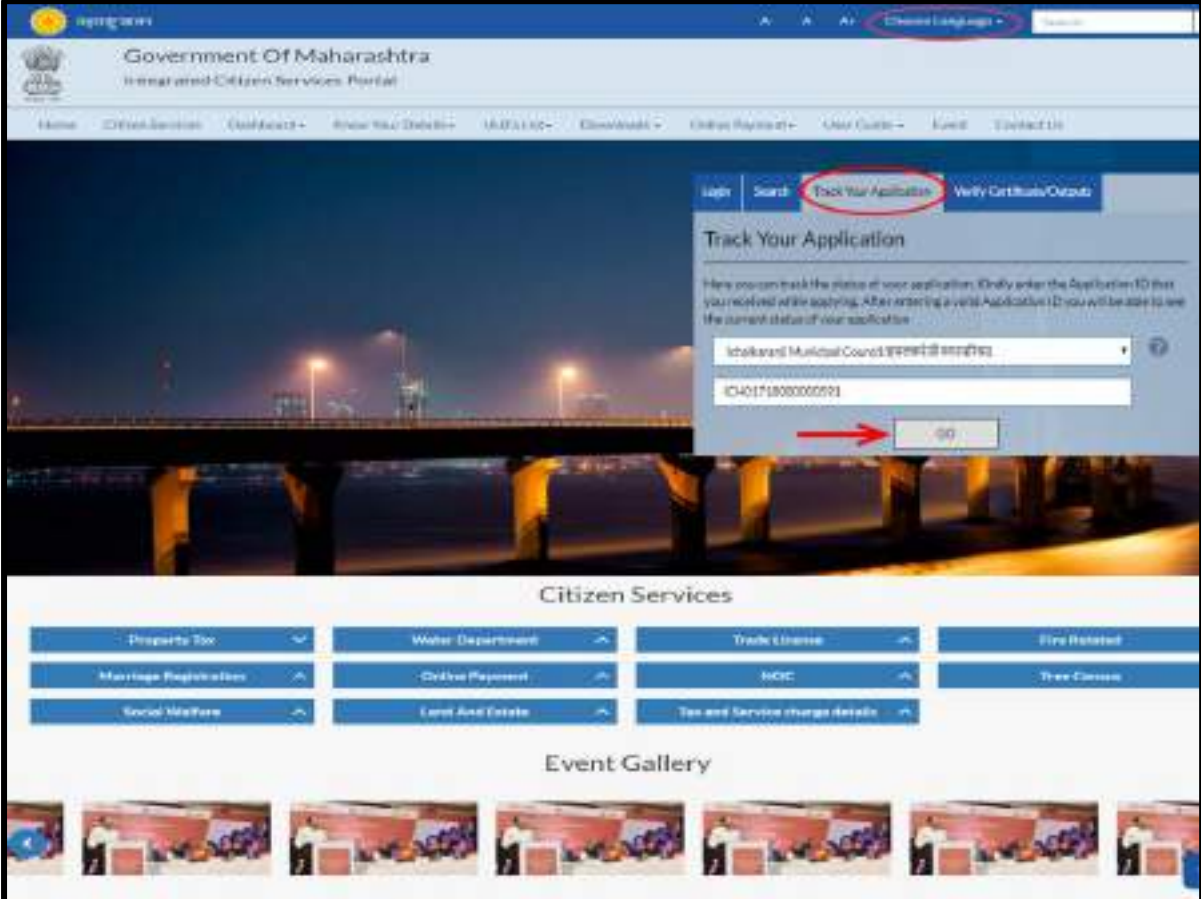

A red arrow points to the 'Apply' button at the bottom right of the form.

When clicked on "Apply" button, service application page will be opened.

4.3 Track your Application

"Track your application" option is used to track the status of the application. User can get to know the status by selecting the ULB Name from the dropdown and entering the application ID.

Refer Below Screen

Government Of Maharashtra
Integrated Citizen Services Portal

Home | Citizen Services | Contact Us | About Us | Download | Online Payment | User Guide | Login | Contact Us

Track Your Application

Here you can track the status of your application. Firstly enter the Application ID that you received while applying. After entering a valid Application ID you will be able to see the current status of your application.

Using this option user can track the status of the application. As seen in above screen the status of application is displayed as "pending"

4.4 Verify Certificate/Outputs

“Verify Certificate/Outputs” gives information about the document (Water Bill/NOC/License etc.)

This option is basically of more advantage for any official person who may or may not be the part of the process to verify the documents submitted by an individual.

For example: Police officials can use this option to cross check the document of Passport etc.

The screenshot shows the Government of Maharashtra Integrated Citizen Services Portal. The 'Verify Certificate/Outputs' form is displayed, featuring a background image of a bridge at night. The form includes the following fields and elements:

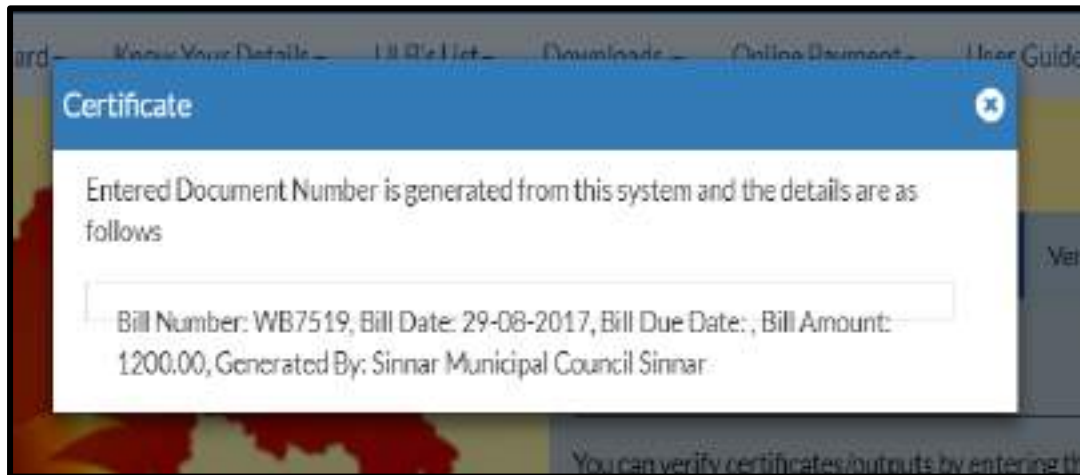

- Language:** A dropdown menu at the top right, currently set to 'English Language'.
- Navigation:** A horizontal menu with links: Home, Citizen Services, Dashboard, Know Your Details, ULB List, Documents, Online Payment, User Guide, Event, and Contact Us.
- Form Fields:**
 - Select Maharashtra District (from dropdown list):** A dropdown menu.
 - Water Bill (or) No.:** A text input field.
 - Water Bill ID:** A text input field.
 - Water Bill No.:** A text input field.
- Verify Button:** A button labeled 'Verify' with a red arrow pointing to it.
- Citizen Services:** A section below the form with a grid of buttons for various services: Property Tax, Water Department, Trade License, Fire Related, Marriage Registration, Police Payment, NOC, Tree Census, Social Welfare, Land And Estate, and Tax and Service charge details.
- Event Gallery:** A section at the bottom displaying a series of small images of events.

Below is the description of all the fields present on form

Sr. No	Field Name	Description
Verify Certificate/Output		
1.	ULB	Select ULB from the dropdown
2.	Type of Document	Select the document type from the dropdown(Water

		Bill/NOC/Property Bill etc.)
3.	Document Number	Enter "Document Number"
4.	Document Date	Select document date from the date picker or enter the date manually

After entering all the required data when clicked on "**Verify**" option below screen will be displayed by the system

4.5 Citizen Service

Citizen can directly apply for any service without registration as well. User can either click on "**Citizen Service**" tab or scroll down the page and select requested Department to apply as shown in below screen

The screenshot displays the Government of Maharashtra Integrated Citizen Services Portal. The header includes the state emblem and the text 'महाराष्ट्र शासन' (Government of Maharashtra). The navigation menu features 'Home', 'Citizen Services' (highlighted), 'Dashboard', 'Know Your Details', 'ULB's List', 'Downloads', 'Online Payment', 'User Guide', 'Event', and 'Contact Us'. The main content area is divided into a login section on the right and a 'Citizen Services' section below the banner. The login section prompts users to log in if already registered, with fields for mobile number/login ID and password, and buttons for 'Login' and 'Register Here'. The 'Citizen Services' section lists various services in a grid: Property Tax, Water Department, Trade License, Fire Related, Marriage Registration, Online Payment, NOC, Tree Census, Social Welfare, Land And Estate, and Tax and Service charge details. Below this is an 'Event Gallery' with a series of event photos.

User have to click the department in which the user have to apply for a service, post selection of department click on the service from the dropdown and later click on "Apply" option

Path: Department Selection → Service Selection → **"Apply"**

Below mentioned are the services present for respective department

Sr. No	Department Name	Service Name
		No Due Certificate
		Extract Of Property
		Exemption for Vacancy of Property

1.	Property Tax	Self-Assessment
		Objection Registration

		Advertising/Hoarding License Application
11.	Tax and Service Charge Details	Tax Details

Note: Citizen Services are not applicable for all the modules,

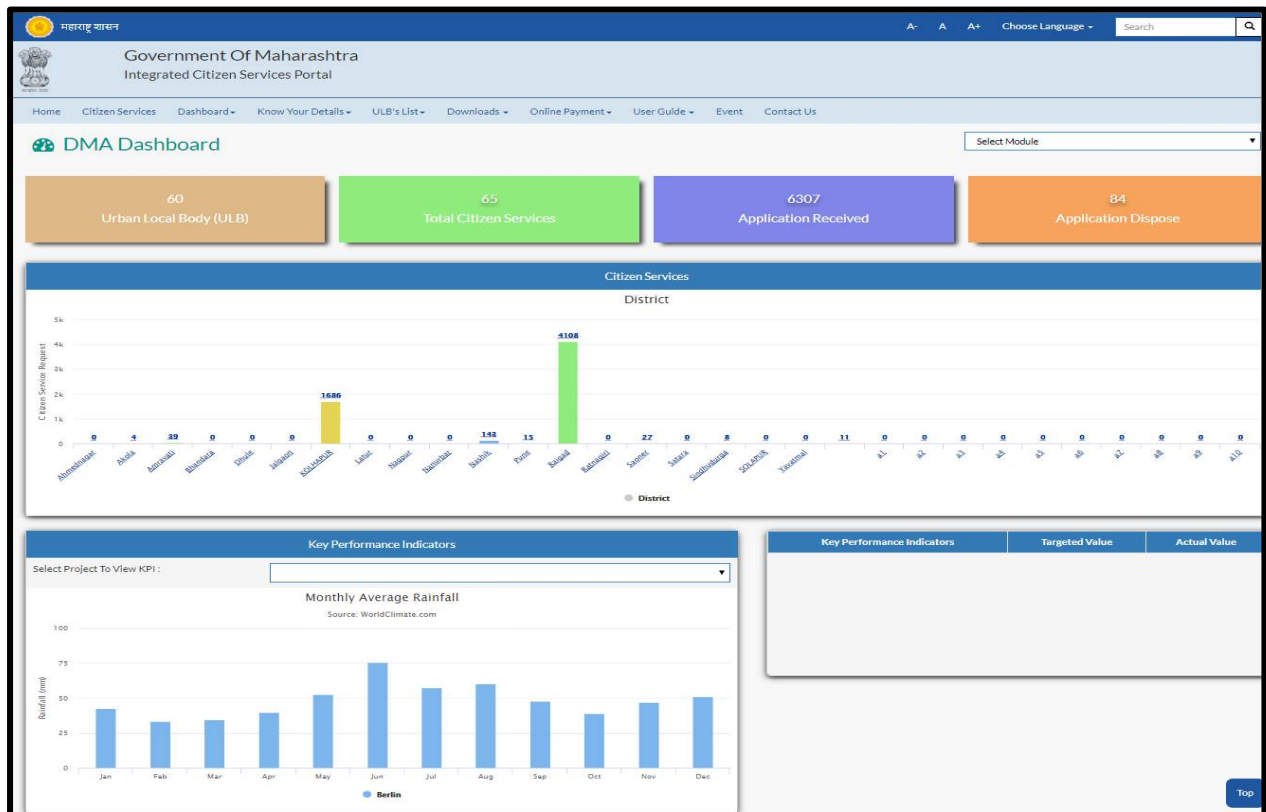

4.6 Dashboard

Dashboard gives the graphical view of reports/application/ services etc. There are two types of dashboards listed in the dropdown namely "**ULB Dashboard**" and "**DMA Dashboard**".

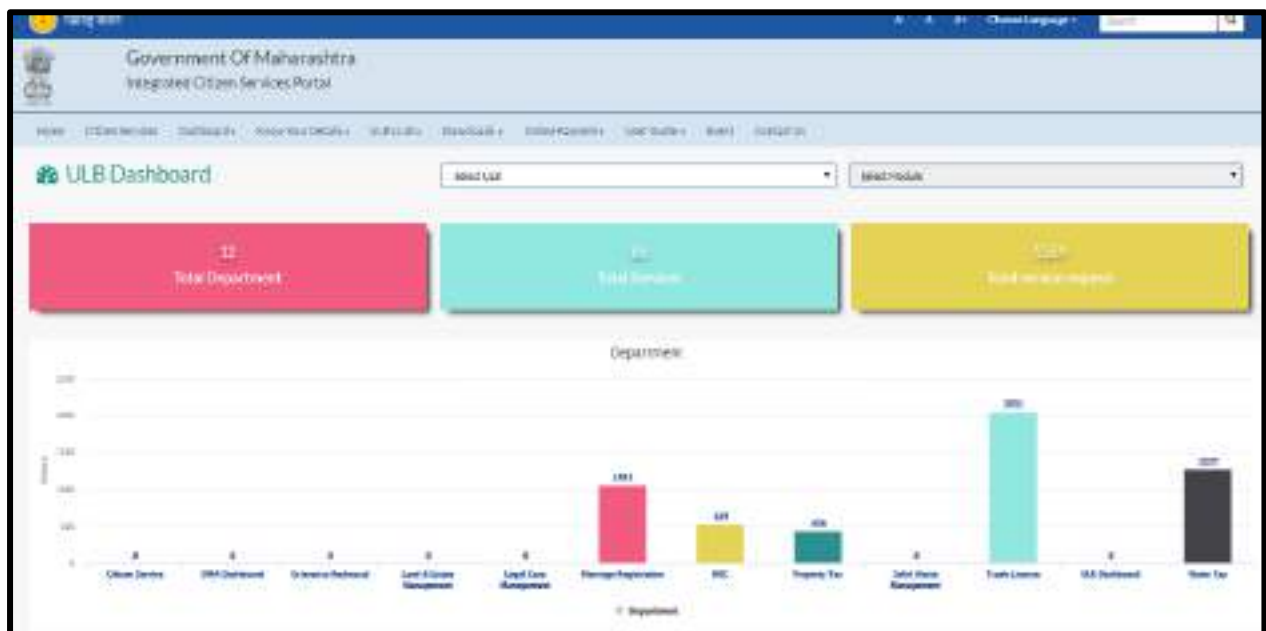

Below is the screen to locate the "**Dashboard**" tab on home screen

On Click of “**DMA Dashboard**” below screen will be displayed

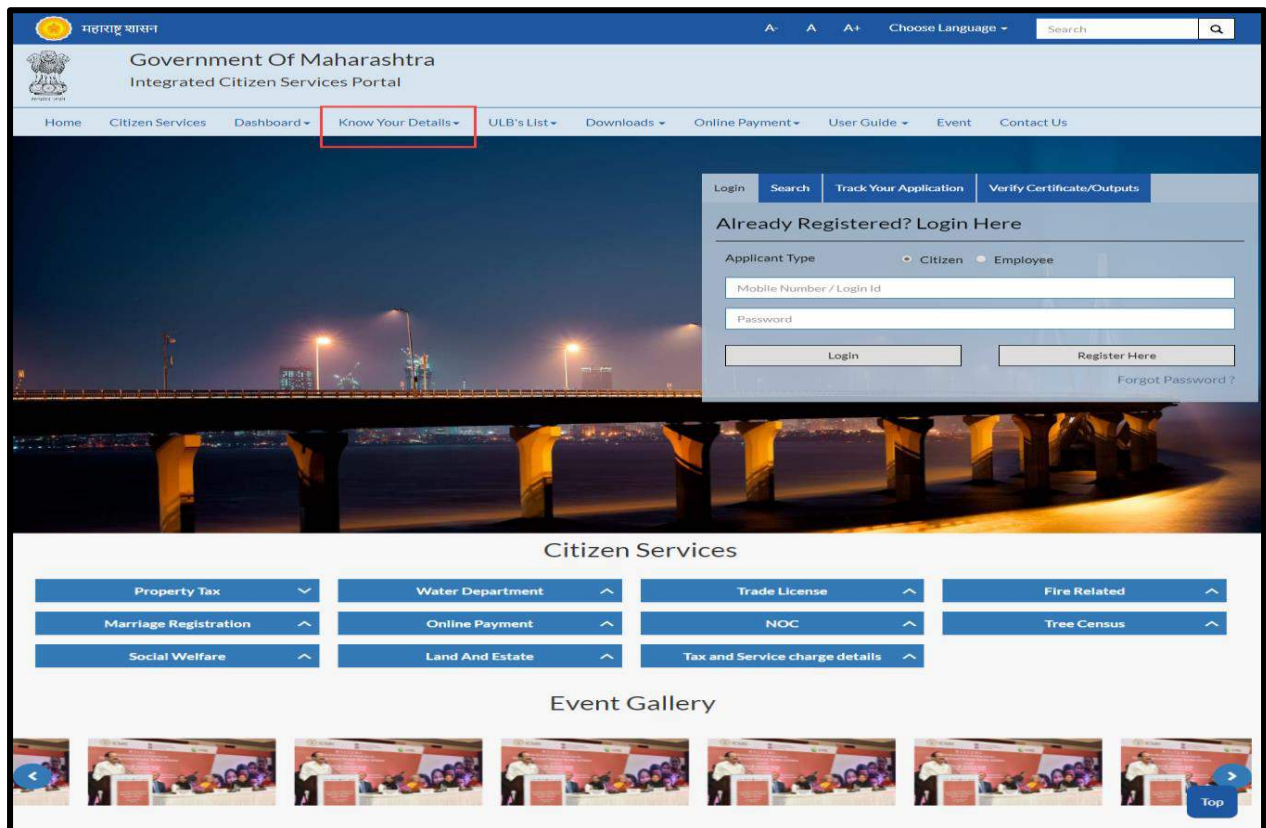

On Click of “**ULB Dashboard**” below screen will be displayed

4.7 Know Your Details

“Know Your Details” tab is used to fetch user details for any request or application from the system on basis of holder name, registration number etc.

Below is the screen to locate the “**Know Your Details**” tab on home screen

User can to know the details of five services which are listed as below. These services will be present in the dropdown when click on “**Know Your Details**”

- Know Your Property ID
- Know Your Water Connection
- Know Your Trade License
- Know Your Ward and Zone
- Know Your Marriage Registration Number

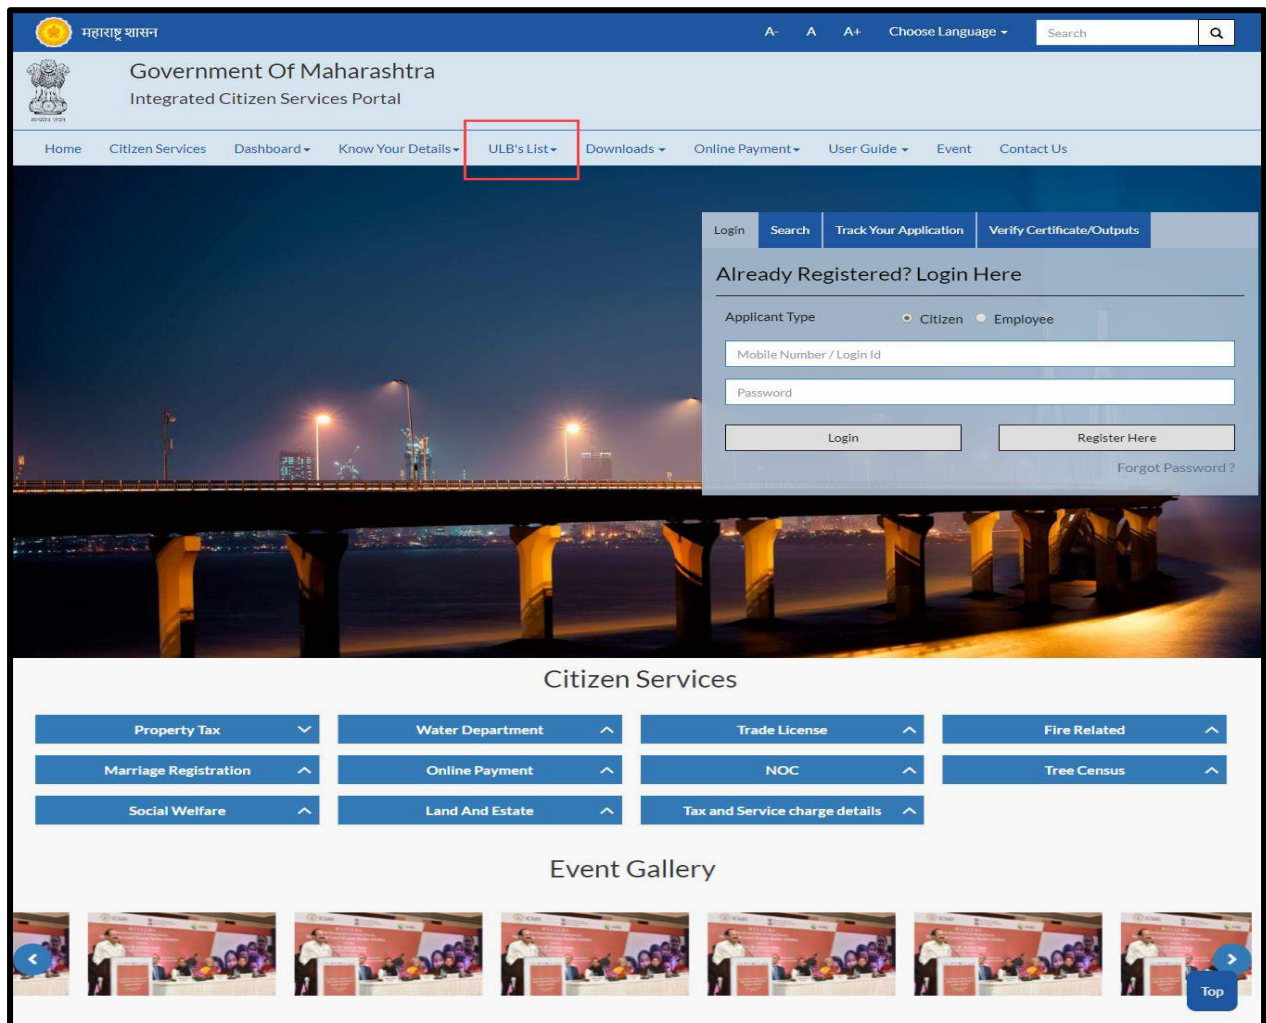

Note: The search parameters will vary on selection of the service

4.8 ULB's List

This option is basically used to navigate and search the ULB's present in the District, Below is the screen to locate the “**ULB's List**” option on home screen.

Currently the dropdown values for “**ULB list**” option are “Roha Municipal Council”, “Alibaug Municipal Council” and “View More” ,on clicking the “**view more**” option, additional ULB's can be selected as per the district and then user will be redirected to the selected ULB home page.

Whereas when clicked on “Roha Municipal Council” and “Alibaug Municipal Council” user will be redirected to the associate home page as per the selection.

4.9 Online Payment

Online Payment option is used to do the payments for a service or application directly. Search will be done on basis of property Number for property Tax module, similarly the search parameter will differ as per service.

Below is the screen to locate the “**Online Payment**” tab on home screen

5 Masters

5.1 Asset Sub Category Master

Asset Sub Category master will allow the user to create multiple asset category and sub category, define rate of depreciation. Once transaction is done by user master data will not be changed.

Follow the path: Department login→ Asset Management (On clicking grid option in left)→ Asset Masters → Asset category Master

Below mentioned screen is displayed when clicked on “**Asset Sub Category Master**”

The screenshot shows the 'Asset Sub Category Master' form. The header includes the 'Government of Maharashtra' logo and 'Integrated Citizen Services Portal'. The left sidebar has a 'Quick Actions' section with a search icon and a home icon. The main form area has a 'Search Asset Category' section with two input fields: 'Asset Sub-Category Name' and 'Asset Category Type*'. The 'Asset Category Type*' field is a dropdown menu with the option '- Please Select -'. Below the input fields are three buttons: 'Add' (with a red arrow pointing to it), 'Search' (with a red arrow pointing to it), and 'Reset'. A red text note at the bottom right states '(*) Fields are mandatory'.

User can either **search** the added master or **add** a new sub category to respective asset.

Firstly let us go through the entire flow of **search** master

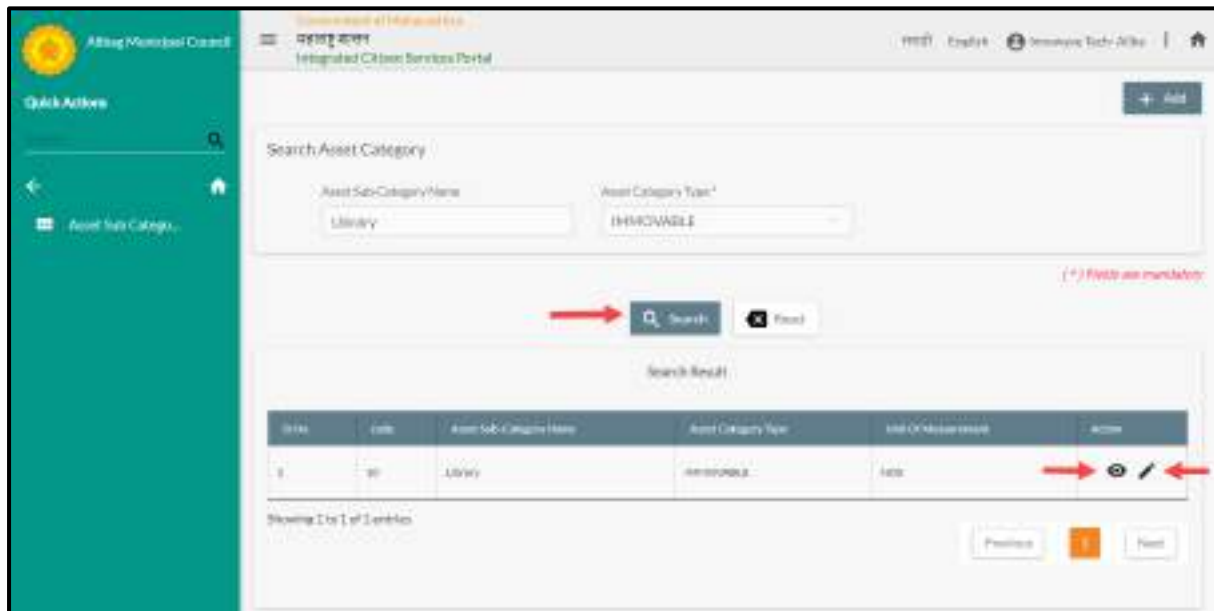

5.1.1 SEARCH

Enter the “Asset Sub-Category Name” and select the “Asset Category Type” from the dropdown. There are three categories listed in the dropdown (Immovable/Movable/Land), user have to select any one amongst the three to search further.

Note: Land option will be available until the Land and estate module is not live. Once the land and Estate module is aired and integrated in our application then land related data will be auto fetched by the system

For example we have entered "**Library**" in the Sub Category Name and have selected "**Immovable**" from the dropdown of Category Type.

Now when clicked on "**Search**" option, the data present in the system for the entered pair of asset sub category and category type will be listed in "search result section, user can **view** as well as **edit** the asset sub category.

Below screen is displayed when clicked on "**View**" option

User can print the detail on clicking "**Print**" and can make changes in the existing data by clicking the "**Edit**" option.

Below screen is displayed when clicked on "print" option

8.	Allow Asset from UI	Check/Uncheck the "Allow Asset from UI"
ADDITIONAL FIELDS		
9.	Name	Enter "Name"
10.	Data Type	Select "Data Type" from drop down (Text/Number/Select)

		Significance of data type: • If data type is selected as "text" then only text value will be accepted for the added attribute while adding movable/immovable asset • If data type is selected as "Number" then only numeric value will be accepted for the added attribute while adding movable/immovable asset • If data type is selected as "Select" then user have to define the selection values in value field mentioned below
11.	Order	Enter "Order", this field is used to define the sequence of the added attributes. The sequence for the attribute defined in this master will be reflecting in the attribute section while adding movable/immovable master.
12.	Value	Enter "Value", this field is used to define the selection option if data type of the attribute is kept as "select"
13.	URL	Enter "URL", Entered URL will be displayed beside the attribute while adding movable/immovable asset
14.	Active	Check/Uncheck the "Active"
15.	Mandatory	Check/Uncheck the "Mandatory". If "mandatory" option is checked than this attribute becomes mandatory while adding movable/immovable asset

User can save the edited Asset Sub Category by clicking the "**update**" button, if no duplication of data is found than a message will be displayed by the system saying "**Updated Successfully**"

"**Reset**" option is used to clear the entered data on form

5.1.2 ADD

User has to click on "**Add**" option to add a new Asset Sub Category in the system, refer below screen.

The screenshot shows the 'Asset Management' interface. On the left is a teal sidebar with 'Quick Actions' and a search bar. The main area has a header with 'Government of Maharashtra' and 'Integrated Citizen Services Portal'. Below the header is a search bar for 'Asset Category' with fields for 'Asset Sub-Category Name' and 'Asset Category Type'. A red arrow points to a '+ Add' button in the top right corner. Below the search bar is a table with columns: S.No, Id, Asset Sub-Category Name, Asset Category Type, Unit Of Measurement, and Action. The table contains five rows of data. A red note at the bottom right states '(*) Fields are mandatory'.

S.No	Id	Asset Sub-Category Name	Asset Category Type	Unit Of Measurement	Action
1.	1	Building	IMMOVABLE	HQS	
2.	2	Infrastructure work	IMMOVABLE	HQS	
3.	3	Road and Highway	IMMOVABLE	HQS	
4.	4	Electrical installation	IMMOVABLE	HQS	
5.	5	Other Building	IMMOVABLE	HQS	

Following screen will be displayed when clicked on **add** button

The screenshot shows the 'Create Asset Sub Category' form. It has a teal sidebar on the left. The form contains several input fields: 'Asset Sub-Category Name' (filled with 'Hall'), 'Asset Category Type' (dropdown with 'IMMOVABLE'), 'Asset Category Name' (filled with 'Building'), 'Depreciation Method' (filled with 'Straight Line method'), 'Unit Of Measurement' (dropdown with 'Numbers'), 'Is Depreciation Applicable' (dropdown with 'YES'), and 'Rate of Depreciation (%)' (filled with '5/100'). There is a checkbox for 'Allow asset from LA' which is checked. Below these fields is an 'Additional Field' section with fields for 'Name' (filled with 'Construction Class'), 'Data Type' (dropdown with 'Text'), 'Is Active' (checkbox checked), 'Is Mandatory' (checkbox checked), 'Code' (filled with '123'), and 'Value' (filled with '123'). A red arrow points to an orange circular button with a plus sign in the bottom right corner. A red note at the bottom right states '(*) Fields are mandatory'.

Below is the description given of all the fields present on form

Sr. No	Field Name	Description
CREATE ASSET SUB CATEGORY		
1.	Asset Sub Category Name	Enter "Asset Sub Category Name"
2.	Asset Category Type	Select the "Asset Category Type" from the dropdown (Immovable/Movable/Land)
3.	Asset Category Name	Select the "Asset Category Name" from the dropdown. "Asset Category Name" is based on the selection of "asset category type" (for example if i select asset category type as "Immovable" then the category name will contain the dropdown values namely Bin/Building/Drainage/Gym/Hall etc.)
4.	Depreciation Method	"Depreciation Method" will be by default displayed as "Straight Line Method" by the system
5.	Unit Of Measurement	Select "Unit Of Measurement" from the dropdown (Centimetre/Grams/Litres/Meter/Number etc.)
6.	Is Depreciation Applicable	Select "Is Depreciable Applicable" from the dropdown (Yes/No)
7.	Rate of Depreciation	Enter the "Rate of Depreciation"
8.	Allow Asset from UI	Check/Uncheck the "Allow Asset from UI"
ADDITIONAL FIELD		
9.	Name	Enter "Name"
10.	Data Type	Select "Data Type" from drop down (Text/Number/Select) Significance of data type: - If data type is selected as "text" then only text value will be accepted for the added attribute while adding movable/immovable asset - If data type is selected as "Number" then only numeric value will be accepted for the added attribute while adding movable/immovable asset If data type is selected as "Select" then user have to define the selection values in value field mentioned below
11.	Order	Enter "Order", this field is used to define the

		sequence of the added attributes. The sequence for the attribute defined in this master will be reflecting in the attribute section while adding movable/immovable master.
12.	Value	Enter "Value", this field is used to define the selection option if data type of the attribute is kept as "select"
13.	URL	Enter "URL", Entered URL will be displayed beside the attribute while adding movable/immovable asset
14.	Active	Check/Uncheck the "Active"
15.	Mandatory	Check/Uncheck the "Mandatory". If "mandatory" option is checked than this attribute becomes mandatory while adding movable/immovable asset

Additional Field section is used to add extra information regarding the asset sub category.

Note: When clicked on "**Plus**" icon, extra rows get added in the "**Additional Field**" section & asterisk fields are the mandatory ones

User can save the added Asset Sub Category by clicking the "**Save**" button, if no duplication of data is found and all the validations are fulfilled then a message will be displayed by the system saying "**Added successfully**"

"**Reset**" option is used to clear the entered data on form

5.2 Movable Asset Master

Movable Asset Master will be used to enter previous Assets as well as to see existing entries with location details; this master will have integration with Works Management, Inventory management as well as Account modules.

Follow the path: Department login→ Asset Management (On clicking grid option in left)→ Asset Masters → Movable Asset

Below mentioned screen appears when clicked on “**Movable Asset**”

The screenshot shows the 'Movable Asset Master' form. The left sidebar contains a 'Quick Actions' section with a search icon and a 'Movable Asset' link. The main form area has a 'Search Asset' section with the following fields: 'Asset Category Type' (dropdown menu with 'MOVABLE' selected), 'Asset Category' (dropdown menu with 'Please Select' selected), 'Asset Sub Type Name' (dropdown menu with 'Please Select' selected), 'Department' (dropdown menu with 'Please Select' selected), 'Asset ID No.' (text input), 'Asset Name' (text input), 'Original Value of Asset From Rs.' (text input), 'Original Value of Asset To Rs.' (text input), 'Asset Created Date From' (text input with format DD/MM/YYYY), and 'Asset Created Date To' (text input with format DD/MM/YYYY). A red arrow points to the '+ Add' button in the top right corner. Another red arrow points to the 'Search' button at the bottom center. A note at the bottom right states '(*) Fields are mandatory'.

User can either “**search**” the added master or “**add**” a new movable asset.

Firstly let us go through the entire flow of **search** master

5.2.1 SEARCH

Select required Parameter and Click on search, on click of “**Search**” Button bellow screen will be displayed

For “Movable Asset Master”, Asset Category Type will be by default displayed as “**Movable**” by the system

The screenshot displays the 'Asset Management' portal interface. On the left is a teal sidebar with a 'Quick Actions' section and a 'Movable Asset' link. The main area is titled 'Search Asset' and contains a form with the following fields:

- Asset Category Type: MOVABLE
- Asset Category: -- Please Select --
- Asset Sub Type Name: -- Please Select --
- Department: -- Please Select --
- Asset ID No: [Empty]
- Asset Name: [Empty]
- Original Value of Asset From Rs.: [Empty]
- Original Value of Asset To Rs.: [Empty]
- Asset Created Date From: DD/MM/YYYY
- Asset Created Date To: DD/MM/YYYY

Below the form is a 'Search' button with a magnifying glass icon, highlighted by a red arrow. To its right is a 'Reset' button. A red text note states: '(*) Fields are mandatory'. Below the search area is a 'Search Result' section with a table of 5 assets. The table has columns: Sr. No., Asset ID No., Asset Name, Asset Sub Type Name, Department, Original Value of Asset(Rs.), Opening Written Down Value(Rs.), and Action. The first row is highlighted, and red arrows point to the 'Action' column icons (info and edit).

Sr. No.	Asset ID No.	Asset Name	Asset Sub Type Name	Department	Original Value of Asset(Rs.)	Opening Written Down Value(Rs.)	Action
1	etvalia40/00113	Furniture and Fixtures	Furniture	Lecturer Department	1,68,000	90,000	[Info] [Edit]
2	etvalia40/00118	Software Licenses	Computer software Licenses	Computer Department	85,000	5,000	[Info] [Edit]
3	etvalia40/00119	Tractors	Tractor	Health Department	25,00,000	15,00,000	[Info] [Edit]
4	etvalia40/00120	Shed Furniture	Furniture	Store Department	40,00,000	40,000	[Info] [Edit]
5	etvalia40/00121	Fire Fighting Equipment	Fire Fighting	Fire Fighting Department	15,00,000	15,00,000	[Info] [Edit]

Showing 1 to 5 of 5 entries. Navigation buttons: Previous, Next.

Note: All parameters are not mandatory for searching an asset, User can select as per preference, below is the description of each field

Sr. No	Field Name	Description
7.	Asset Category Type	By default displayed as "movable"
8.	Asset Category	Select the Asset Category from the dropdown. Asset Category varies as per the selection of "Asset Category Type" for

		movable asset type, the asset category will contain dropdown values namely (Commercial Vehicles/Other Vehicles/Office Equipment's, computers & peripherals/Furniture & fixtures/Intangible Assets)
9.	Asset Sub Type Name	Select the Asset Sub Type from the dropdown. Asset Sub Type Name will be on selection of Asset Category (for example if we select "Commercial Vehicles" asset category than the value present in the dropdown of "Asset Sub Type Name" will be (buses/dumpers/tipper/tractor etc.)
10.	Department	Select Department from the dropdown (Accounts/ Property /Water / Administration/ Computers etc.)
11.	Asset Id No	Enter "Asset ID No."
12.	Asset Name	Enter "Asset ID Name"
13.	Original value of Asset from(Rs.)	Enter "Original value of Asset from(Rs.)"
14.	Original value of Asset To(Rs.)	Enter "Original value of Asset To(Rs.)"
15.	Asset created date from	Select "Asset created date from" from date picker or enter the date manually
16.	Asset created date To	Select "Asset created date To" from date picker or enter the date manually

The data present in the system as per the entered parameter will be displayed in search result section; user can view as well as edit the movable asset

Below screen appears when clicked on **"View"** option

User can save the edited data by clicking the "**update**" button, if no duplication of data is found than a message will be displayed by the system saying "**Updated Successfully**"

"**Reset**" option is used to clear the entered data on form

5.2.2 ADD

User have to click on "**Add**" option to add a new Movable Asset in the system, refer below screen.

The screenshot displays the 'Add' button in the top right corner, highlighted with a red arrow. Below it is the 'Search Asset' form, which includes the following fields:

- Asset Category (Text): MOVABLE
- Asset Category (Dropdown): Please Select
- Asset Sub Type Name (Dropdown): Please Select
- Department (Dropdown): Please Select
- Asset ID No. (Text):
- Asset Name (Text):
- Original Value of Asset From (Text):
- Original Value of Asset To (Text):
- Asset Created Date From (Text): DD/MM/YYYY
- Asset Created Date To (Text): DD/MM/YYYY

At the bottom of the form are 'Search' and 'Print' buttons. A red note at the bottom right states: "(*) Fields are mandatory."

Following screen is displayed when clicked on **add** button

The screenshot shows the 'Create/Enter Movable Asset' form in the Integrated Citizen Services Portal. The form is divided into several sections:

- Create/Enter Movable Asset:** This section contains fields for 'Asset ID' (1), 'Date of Creation' (05/07/2017), 'Asset Name' (Air Conditioner), 'Asset Type Name' (Air Conditioner), 'Net Vol. of Item Register' (3.5), 'Department' (Assessment Department), 'Date of Acquisition' (05/07/2017), 'Mode of Acquisition' (Transfer), 'Inventory Number' (154), and 'Date Date' (18/06/2017).
- Location Details:** This section contains fields for 'Location' (Municipal Council), 'Address' (Municipal Council), 'Longitude' (78.3), and 'Latitude' (16.8).
- Asset Details:** This section contains fields for 'Asset Category' (5), 'No. of Quantity' (5), 'No. of Quantity of the Numbers' (Numbers), 'Original Value of Asset' (50000), 'Clearing RTD Date' (18/08/2017), 'Opening Written Down Value' (50000), 'Source of Fund' (FUND FUND), 'Security Deposit Returned' (5000), 'Security Deposit Received' (5), 'Default Liability Period' (0), 'Default Liability Period (Working)' (0), 'Default Liability Period (Days)' (0), 'Warranty' (Yes), 'Warranty Expiry Date' (18/07/2018), and 'What This Equipment is Available'.
- Asset Account Code:** This section contains fields for 'Asset Account Code' (Please Select), 'Accumulated Depreciation Account' (Please Select), 'Depreciation Expense Account' (Please Select), and 'Depreciation Expense Account' (Please Select).

A red arrow points to the 'Add' button in the top right corner of the form.

Below is the description of all the fields present on form

Sr No	Field Name	Description
CREATE/ENTER MOVABLE ASSET		

1.	Old Asset ID No(Only for Legacy)	Enter the "Old Asset ID No(Only for Legacy)"
2.	Date of creation	select "Date of Creation" from date picker or enter manually
3.	Asset Name	Enter "Asset Name"
4.	Asset Sub Type Name	Select "Asset Sub Type Name" from the dropdown (Tipper/Tractor/Boat/Buses/Car/Dumpers etc.)
5.	Ref. no of WIP Register	Enter "Ref. no of WIP Register"
6.	Department	Select Department from the drop down (water/asset/Health/license/light etc.)
7.	Date of Acquisition	Select "Date of Acquisition" from date picker or enter date manually
8.	Mode of Acquisition	Select Mode of Acquisition from the drop down (Acquired/construction/donation/purchase/tender etc.)
9.	From Whom Acquired	Enter "From Whom Acquired"
10.	Order Number	Enter "Order Number"
11.	Order Date	Enter "Order Date"
LOCATION DETAILS		
12.	Location	Select "Location" on clicking Google Maps
13.	Longitude	Automatically fetched based on location
14.	Latitude	Automatically fetched based on location
15.	Address	Automatically fetched based on location but it can be edited as well
ASSET DETAILS		
16.	Anticipated Life Span(Years)	Non editable field
17.	No. or Quantity	Enter No. or Quantity
18.	No. or Quantity UOM	Select "No. or Quantity UOM" from the dropdown (Centimetre/Grams/Litres/Meter/Number etc.)
19.	Original Value Of Asset(Rs.)	Enter "Original Value Of Asset(Rs.)"
20.	Opening WDV Date	Enter "Opening WDV Date"
21.	Opening Written Down Values (Rs.)	Enter "Opening Written Down Values (Rs.)"
22.	Source of Fund	Enter "Source of Fund"
23.	Security Deposit Retained (Rs.)	Enter "Security Deposit Retained (Rs.)"
24.	Security Deposit Realized (Rs.)	Enter "Security Deposit Realized (Rs.)"
25.	Defect Liability Period (Years)	Enter "Defect Liability Period (Years)"
26.	Defect Liability Period (Months)	Enter "Defect Liability Period (Months)"
27.	Defect Liability Period (Days)	Enter "Defect Liability Period (Days)"
28.	Warranty?	Select "Yes" or "No" from the radio button
29.	What Title Documents are Available?	Enter "What Title Documents are Available?"

30.	Asset Description	Enter "Asset Description"
ACCOUNT DETAILS		
31.	Asset Account Code	select respective map DEAS account code
32.	Accumulated Depreciation Account	select respective map DEAS account code
33.	Revaluation Reserve Account	select respective map DEAS account code
34.	Depreciation Expenses Account	select respective map DEAS account code

User can save the added Movable Asset by clicking the "**Save**" button; if no duplication of data is found and all the validations are fulfilled then a message will be displayed by the system saying "**Added successfully**"

"**Reset**" option is used to clear the entered data on form.

5.3 Immovable Asset Master

Immovable Asset Master will be used to enter previous Asset as well as to see existing entries with location details; this master will have integration with Works Management ,Inventory management, land and estate, as well as with Account modules.

Follow the path: Department login→ Asset Management (On clicking grid option in left)→ Asset Masters → Immovable Asset

Below mentioned screen appears when clicked on "Immovable Asset"

User can either "Search" the added master or "Add" a new Immovable Asset.

Firstly let us go through the entire flow of **search** master

5.3.1 SEARCH

Select required Parameter and Click on search, on click of "Search" Button bellow screen will be displayed

For "Immovable Asset Master", Asset Category Type will be by default displayed as "**Immovable**" by the system

14.	Survey No of land on which Structure is Located	Non editable field
15.	Area of Land (sq.ft.)	Non editable field
LOCATION DETAILS		
16.	Location	Non editable field
17.	Longitude	Non editable field
18.	Latitude	Non editable field
19.	Address	Enter "Address"
20.	Election Ward	Select "Election Ward" from the dropdown (Ward 10/Ward 11/Ward 16/Ward 15/Ward 7 etc.)
ASSET DETAILS		
21.	Anticipated Life Span(Years)	Non editable field
22.	Area of Land on which constructed	Enter "Area of Land on which constructed"
23.	Area of Land on which constructed UOM	Select "Area of Land on which constructed UOM" from the dropdown (Centimetre/Grams/Litres/Meter/Number etc.)
24.	Original Value Of Asset(Rs.)	Enter "Original Value Of Asset(Rs.)"
25.	Opening WDV Date	Enter "Opening WDV Date"
26.	Opening Written Down Values (Rs.)	Enter "Opening Written Down Values (Rs.)"
27.	Source of Fund	Select "Source of Fund" from the dropdown (Fake fund 1/fake fund 2 etc.)
28.	Security Deposit Retained (Rs.)	Enter "Security Deposit Retained (Rs.)"

29.	Security Deposit Realized (Rs.)	Enter "Security Deposit Realized (Rs.)"
30.	Defect Liability Period (Years)	Enter "Defect Liability Period (Years)"
31.	Defect Liability Period (Months)	Enter "Defect Liability Period (Months)"
32.	Defect Liability Period (Days)	Enter "Defect Liability Period (Days)"
33.	Warranty?	Select "Yes" or "No" from the radio button
34.	What Title Documents are Available?	Enter "What Title Documents are Available?"
35.	Asset Description	Enter "Asset Description"
ASSET ATTRIBUTES (varies as per the selection of "Asset Sub Type")		
36.	Color	Enter "Color"
37.	Material	Enter "Material"
38.	Length	Enter "Length"
ACCOUNT DETAILS		
39.	Asset Account Code	select respective map DEAS account code
40.	Accumulated Depreciation Account	select respective map DEAS account code
41.	Revaluation Reserve Account	select respective map DEAS account code
42.	Depreciation Expenses Account	select respective map DEAS account code

User can save the edited Immovable asset by clicking the **"update"** button, if no duplication of data is found then a message will be displayed by the system saying **"Updated Successfully"**

"Reset" option is used to clear the entered data on form

5.3.2 ADD

User have to click on **"Add"** option to add a new Immovable Asset in the system, refer below screen.

The screenshot displays the 'Add' form for Immovable Assets within the Integrated Citizen Service Portal. The interface includes a teal sidebar with 'Quick Actions' and a main content area with a search bar and a form. A red arrow points to the '+ Add' button in the top right corner. The form contains the following fields:

- Asset Category Type: Dropdown menu with 'IMMOVABLE' selected.
- Asset Category: Dropdown menu with 'Please Select'.
- Asset Sub-Type/Name: Dropdown menu with 'Please Select'.
- Department: Dropdown menu with 'Please Select'.
- Asset E-Id: Text input field.
- Asset Name: Text input field.
- Original Value of Asset From (Rs.): Text input field.
- Original Value of Asset To (Rs.): Text input field.
- Asset Created Date From: Date input field with 'YYYYMM' format.
- Asset Created Date To: Date input field with 'YYYYMM' format.

At the bottom of the form, there are 'Search' and 'Reset' buttons. A red text note at the bottom right states: '(*) Fields are mandatory'.

Following screen appears when clicked on **add** button

[illegible]

Below is the description of all the fields present on form

Sr. No	Field Name	Description
CREATE/ENTER IMMOVABLE ASSET		
1.	Old Asset ID No(Only for Legacy)	Enter the "Old Asset ID No(Only for Legacy)"
2.	Date of creation	Select "Date of Creation" from date picker or enter manually
3.	Asset Name	Enter "Asset Name"
4.	Asset Sub Type Name	Non editable field
5.	Ref. no of WIP Register	Enter "Ref. no of WIP Register" in case of old data entry only
6.	Department	Select Department from the drop down (water/asset/Health/license/light etc.)
7.	Date of Acquisition	Select "Date of Acquisition" from date picker or enter manually
8.	Mode of Acquisition	Select "Mode of Acquisition" from the drop down (Acquired/construction/donation/purchase/tender etc.)
9.	From Whom Acquired	Enter "From Whom Acquired"
10.	Order Number	Enter "Order Number"
11.	Order Date	Enter "Order Date"
LAND DETAILS		
12.	Land Asset ID	Enter "Land Asset ID"
13.	Survey No of land on which Structure is Located	Non editable field
14.	Area of Land (sq.ft.)	Non editable field
LOCATION DETAILS		
15.	Location	Select "Location" on clicking Google Maps
16.	Longitude	Automatically fetched based on location
17.	Latitude	Automatically fetched based on location
18.	Address	Automatically fetched based on location but it can be edited as well
19.	Election Ward	Select "Election Ward" from the dropdown (Ward 10/Ward 11/Ward 16/Ward 15/Ward 7 etc.)
ASSET DETAILS		
20.	Anticipated Life Span(Years)	Non editable field
21.	Area of Land on which constructed	Enter "Area of Land on which constructed"
22.	Area of Land on which constructed UOM	Select "Area of Land on which constructed UOM" from the dropdown (Centimetre/Grams/Litres/Meter/Number etc.)
23.	Original Value Of Asset(Rs.)	Enter "Original Value Of Asset(Rs.)"
24.	Opening WDV Date	Enter "Opening WDV Date"

25.	Opening Written Down Values (Rs.)	Enter "Opening Written Down Values (Rs.)"
26.	Source of Fund	Select "Source of Fund" from the dropdown (Fake fund 1/fake fund 2 etc.)
27.	Security Deposit Retained (Rs.)	Enter "Security Deposit Retained (Rs.)"
28.	Security Deposit Realized (Rs.)	Enter "Security Deposit Realized (Rs.)"
29.	Defect Liability Period (Years)	Enter "Defect Liability Period (Years)"
30.	Defect Liability Period (Months)	Enter "Defect Liability Period (Months)"
31.	Defect Liability Period (Days)	Enter "Defect Liability Period (Days)"
32.	Warranty?	Select "Yes" or "No" from the radio button
33.	What Title Documents are Available?	Enter "What Title Documents are Available?"
34.	Asset Description	Enter "Asset Description"
ASSET ATTRIBUTES (varies as per the selection of "Asset Sub Type")		
35.	No of Floors	Enter "No of Floors"
36.	Floor Wise Area	Enter "Floor Wise Area"
37.	Floor Wise Area UOM	Select "Floor Wise Area UOM" from the dropdown (Centimetre/Grams/Litres/Meter/Number etc.)
38.	Construction Class	Enter "Construction Class"
39.	Usage	Enter "Usage"
40.	Occupancy By	Enter "Occupancy By"
41.	Name Of Occupant	Enter "Name Of Occupant"
42.	Plinth Area	Enter "Plinth Area"
43.	Cubic Content	Enter "Cubic Content"
44.	Length	Enter "Length"
45.	Breadth	Enter "Breadth"
46.	Height	Enter "Height"
ACCOUNT DETAILS		
47.	Asset Account Code	select respective map DEAS account code
48.	Accumulated Depreciation Account	select respective map DEAS account code
49.	Revaluation Reserve Account	select respective map DEAS account code
50.	Depreciation Expenses Account	select respective map DEAS account code

User can save the added Immovable Asset by clicking the **"Save"** button, if no duplication of data is found and all the validations are fulfilled then a message will be displayed by the system saying **"Added successfully"**

"Reset" option is used to clear the entered data on form

6 Transaction

6.1 Asset Revaluation

The purpose of a revaluation is to bring into the books the fair market value of assets. This may be helpful in order to decide on the present value of asset. This is undertaken either at the time of issue of municipal bonds or when commercial development/lease of properties is made. It is also done when ULB wants to sell/Transfer one of its assets, it is revalued in preparation for sales negotiations. An increase in net book value arising on revaluation shall be credited to a reserve account under the Municipal fund as 'Revaluation Reserve Account' and decrease in net book value arising on revaluation of fixed assets is charged to Income and Expenditure accounts. This screen will be used to capture revaluation value and will pass appropriate voucher entry in Finance Management Module.

Follow the path: Department login → Asset Management (On clicking grid option in left) → Asset Transactions → Asset Revaluation → Revalue Asset

Below mentioned screen appears when clicked on **"Revalue Asset"**

The screenshot shows the 'Valuation of Asset' form. It includes the following fields:

- Asset Category Type (Dropdown)
- Asset Category (Dropdown)
- Asset Sub Type (Dropdown)
- Department (Dropdown)
- Asset ID (Text)
- Asset Name (Text)
- Original Value of Asset (Text)
- Original Value of Asset (Text)
- Asset Created Date (Text)
- Asset Created Date (Text)

A red arrow points to the 'Search' button at the bottom right of the form.

Select/Enter required Parameter and Click on search button for selecting asset for revaluation

Note: All parameters are not mandatory for searching an asset, user can select as per the preference, below is the description of each field

[Click here to refer the description of fields](#)

Post entering the search parameters, click on **"search"** option to search the asset in the system, Below Screen is displayed when clicked on search button

User have to select an entry from the **search result** to reevaluate the same, please find below screen for selection reference

User have to enter all the mandatory fields to reevaluate the selected asset. Below is the description of all the fields

Sr No	Field Name	Description
-------	------------	-------------

1.	Revaluation Date	By default current date will be displayed by the system , but user can edit/ change the "Revaluation date" by manually entering the date or selecting from date picker
2.	Order No.	Enter "Order No."
3.	Order Date	Enter the "Order Date" manually or select the date from date picker
4.	Value After Revaluation	Enter the "Value After Revaluation"
5.	Addition/Deducted Amount	"Addition/Deducted Amount" will be calculated by the system itself based on revaluation value
6.	Remarks	Enter "Remarks"

user can save the revaluated value for an asset by clicking the **"create"** button.

If all the validations are fulfilled then a message will be displayed by the system saying **"Created successfully"**

6.2 Transfer/Disposal of Asset

System provide facility of Transfer / Disposal of asset i.e. to whom asset is sold, value of transfer/ Disposal, date, Purpose, order no and date.

Follow the path: Department login→ Asset Management (On clicking grid option in left)→ Asset Transactions → Transfer/Disposal of Asset→ Transfer/Disposal of Asset

Below mentioned screen appears when clicked on **"Transfer/Disposal of Asset"**

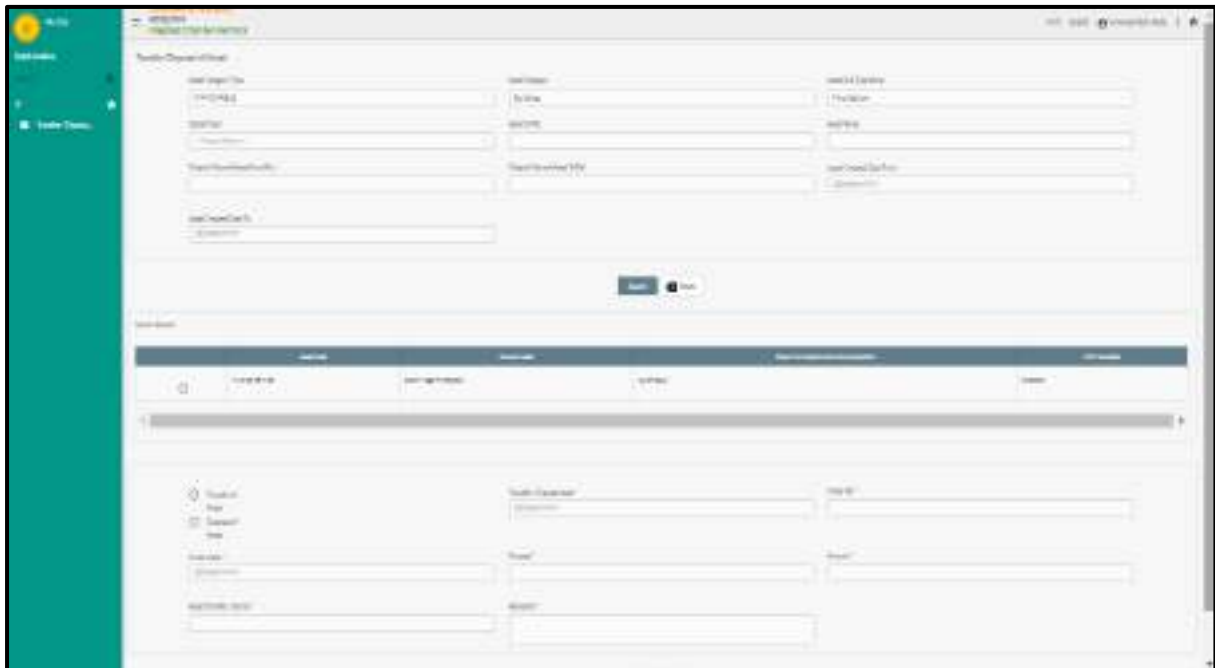

The screenshot shows the 'Transfer/Disposal of Asset' form. The form has a teal sidebar on the left with a 'Quick Actions' section containing a 'Transfer/Disposal...' option. The main form area contains several input fields: 'Asset Category Type' (dropdown), 'Asset Category' (dropdown), 'Asset Sub-Type Name' (dropdown), 'Department' (dropdown), 'Asset ID No' (text), 'Asset Name' (text), 'Original Value of Asset From (₹)' (text), 'Original Value of Asset To (₹)' (text), 'Asset Created Date From' (date), and 'Asset Created Date To' (date). At the bottom right, there is a 'Search' button with a red arrow pointing to it, and a 'Reset' button next to it.

Select/Enter required Parameter and Click on search button for transfer/disposal of asset

Note: All parameters are not mandatory for searching an asset, user can select as per the preference, below is the description of each field

[Click here to refer the description of fields](#)

Click on **search** option to search the asset in the system, Below Screen is displayed when clicked on search button

The screenshot shows a web application interface for asset management. On the left is a teal sidebar with a 'Home' icon and a 'Assets' icon. The main content area is titled 'Transfer/Disposal of Asset'. It contains several input fields for search criteria: 'Asset Name' (with a dropdown), 'Location' (with a dropdown), 'Asset Type' (with a dropdown), 'Asset Category' (with a dropdown), 'Asset Sub-category' (with a dropdown), 'Asset Status' (with a dropdown), 'Asset Location' (with a dropdown), 'Asset ID' (with a dropdown), and 'Asset Description' (with a dropdown). Below these fields is a 'Search' button. Under the search button is a table with columns for 'Asset Name', 'Location', 'Asset Type', 'Asset Category', 'Asset Sub-category', 'Asset Status', 'Asset Location', 'Asset ID', and 'Asset Description'. The table is currently empty. Below the table are several input fields for 'Transfer/Disposal of Asset' details, including 'Transfer/Disposal Type', 'Transfer/Disposal Date', 'Transfer/Disposal Location', 'Transfer/Disposal Status', 'Transfer/Disposal Description', 'Transfer/Disposal ID', 'Transfer/Disposal Location', 'Transfer/Disposal Status', and 'Transfer/Disposal Description'.

User have to select an entry from the **search result** to transfer/disposal of the same, please find below screen for selection reference

The screenshot displays the 'Transfer/Disposal of Asset' form in the 'eGov' system. The form is divided into two main sections: a top section for asset details and a bottom section for search results and action options.

Top Section: Transfer/Disposal of Asset

- Asset Category Type:** RATIONABLE
- Asset Category:** Building
- Asset Sub Type Name:** Pile Station
- Department:** Pile Station Department
- Asset Name:**
- Original Value (Asset Price):**
- Original Value (Asset Price):**
- Asset Created Date/Time:** 10/09/2019
- Asset Created Date/Time:** 10/09/2019

Search Results:

Asset ID	Name of Asset	Date of the Asset (Date/Time)	Asset Price
10/09/2019	Pile Station Department	10/09/2019	10000

Bottom Section: Action Options

- Transfer of Asset:** ☐
- Disposal of Asset:** ☒
- Transfer/Disposal Date:** 17/02/2019
- Asset Price:**
- Asset Price:**
- Asset Price:**
- Asset Price:**

The interface includes a sidebar with 'Quick Actions' and a top navigation bar with 'eGov' and 'Integrated Citizen Services Portal'.

On selecting the asset from search result user can either do the **"Transfer of Asset"** or **"Disposal of Asset"** by radio button selection

[illegible]

User have to enter all the mandatory fields to reevaluate the selected asset.
Below is the description of all the fields.

Sr. No	Field Name	Description
1.	Transfer/ Disposal Date	Enter the "Transfer/ Disposal Date" manually or select the date from date picker
2.	Order No.	Enter "Order No."
3.	Order Date	Enter the "Order Date" manually or select the date from date picker
4.	Purpose	Enter "Purpose"
5.	Amount	Enter "Amount"
6.	Asset Transfer/Sold To	Enter the name of "Asset Transfer/Sold To"
7.	Remarks	Enter "Remarks"

User can save the added value for an asset by clicking the **"create"** button.

If all the validations are fulfilled then a message will be displayed by the system saying **"Created successfully"**

6.3 Generate Depreciation

Depreciation is a method of reallocating the cost of an asset over its useful life span of it being in motion. This screen will allow to user for generating depreciation value and will pass appropriate voucher entry in Finance Management Module. In the system depreciation is calculated using straight line method.

Follow the path: Department login→ Asset Management (On clicking grid option in left)→ Asset Transactions → Generate Depreciation

Below mentioned screen appears when clicked on **"Generate Depreciation"**

The screenshot shows the 'Generate Depreciation' form in the All India Medical Council system. The form includes the following fields:

- Date of Depreciation: 17/02/2020
- Asset Category Type: -- Please Select --
- Asset Category: -- Please Select --
- Asset Sub-Category: -- Please Select --
- Asset Brand: -- Please Select --
- Asset Model: -- Please Select --
- Asset Name: -- Please Select --
- Original Value of Asset (Rs.): -- Please Select --
- Original Value of Asset (Dollar): -- Please Select --
- Asset Created Date From: 01/01/2000
- Asset Created Date To: 01/01/2020

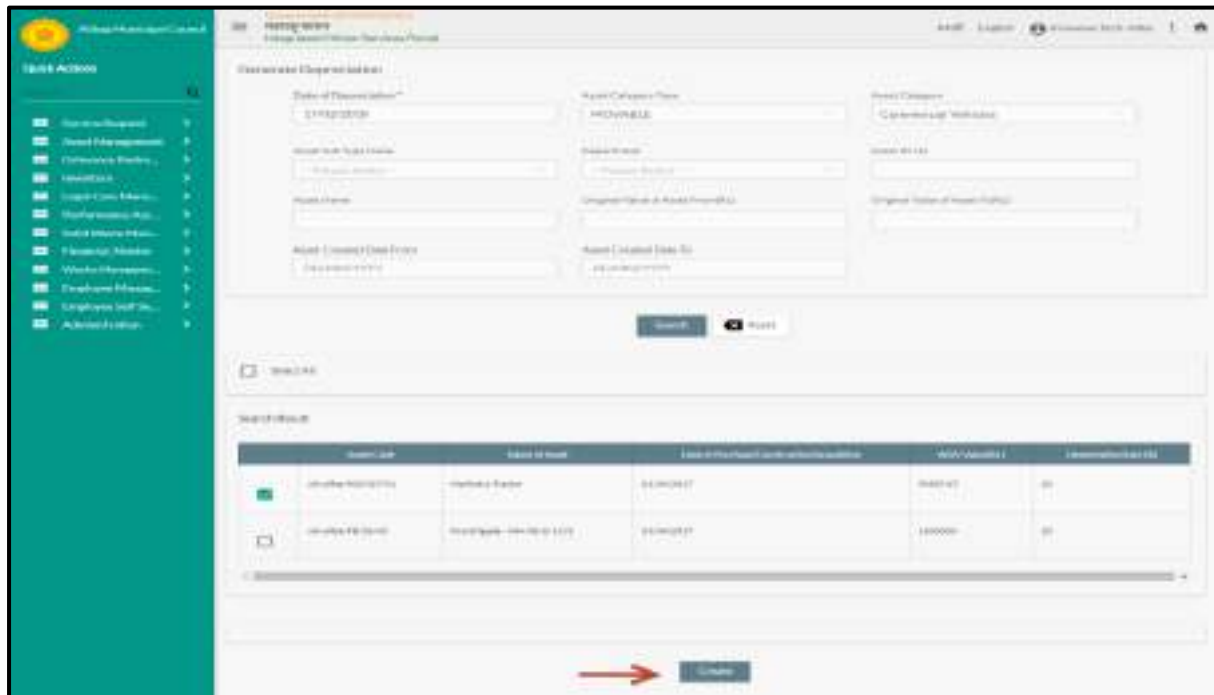

A red arrow points to the 'Search' button at the bottom right of the form.

Select/Enter required Parameter and Click on search button for selecting asset for generation of depreciation

Note: All parameters are not mandatory for searching an asset, user can select as per the preference, below is the description of each field

[Click here to refer the description of fields](#)

Click on **search** option to search the asset in the system, Below Screen is displayed when clicked on search button.

On basis of the entered search parameter the assets will be displayed by the system as shown in search result (refer above screen).

User can select single asset to depreciate the value or select all the assets by checking the **"Select all"** option. Once you have selected an asset you will have to click on **"Create"** button to depreciate the same.

On clicking the create button, a message will be displayed by the system saying **"Depreciation Created Successfully"** also a window will be opened to print the data as follows

Couldn't capture the print as today again it seems to be URL issue

7 Report

7.1 Immovable Asset Register

System provides facility to print Immovable asset register with search by date, asset code, asset name etc.

Follow the path: Department login→ Asset Management (On clicking grid option in left)→ Asset Reports → Immovable Asset Register

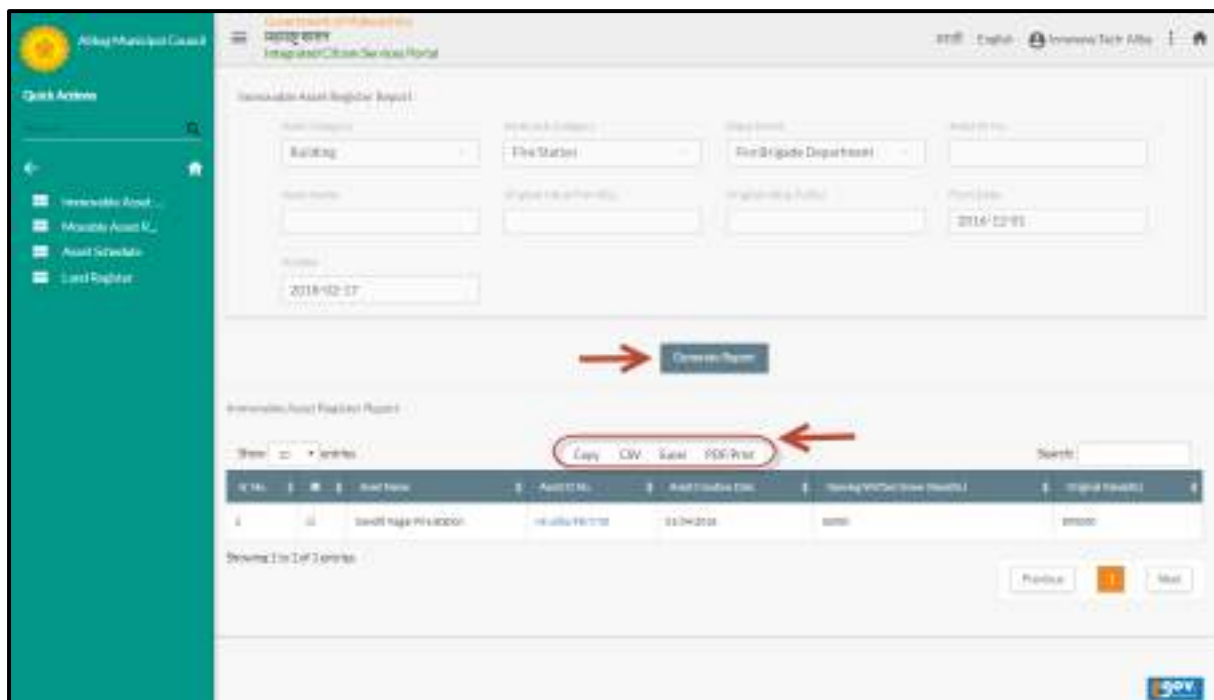

Below mentioned screen appears when clicked on **"Immovable Asset Register"**

Note: All parameters are not mandatory for searching an asset, user can select as per the preference, below is the description of each field

Sr. No	Field Name	Description
1.	Asset Category	Select the Asset Category from the dropdown (Building/ Electrical Installations/Infrastructure assets/ Plant and Machinery)
2.	Asset Sub Category	Select the Asset Sub Category from the dropdown. Asset Sub Category will be on selection of Asset Category (for example if we select "building" asset category than the value present in the dropdown of "Asset Sub Category" will be School/gym/mall/hospital/fire station etc.)
3.	Department	Select Department from the dropdown (Accounts/ Asset/ Election/ Computers etc.)
4.	Asset Id No	Enter "Asset ID No."
5.	Asset Name	Enter "Asset ID Name"
6.	Original value of Asset from(Rs.)	Enter "Original value of Asset from(Rs.)"
7.	Original value of Asset To(Rs.)	Enter "Original value of Asset To(Rs.)"

8.	From Date	Select "From Date" from date picker or enter the date manually
9.	To Date	Select "To Date" from date picker or enter the date manually

Select/Enter required Parameter and Click on "**Generate Report**" button for generating Immovable Asset Register report. Now when clicked on generate report button, all the matching records of assets present in the system as per the entered parameter will be displayed in the grid below. Please refer below screen

User can directly save the entry on clicking the four option viz. Copy, CSV, Excel, PDF/Print as shown in above screen.

Below are the screens of all the four options just for reference.

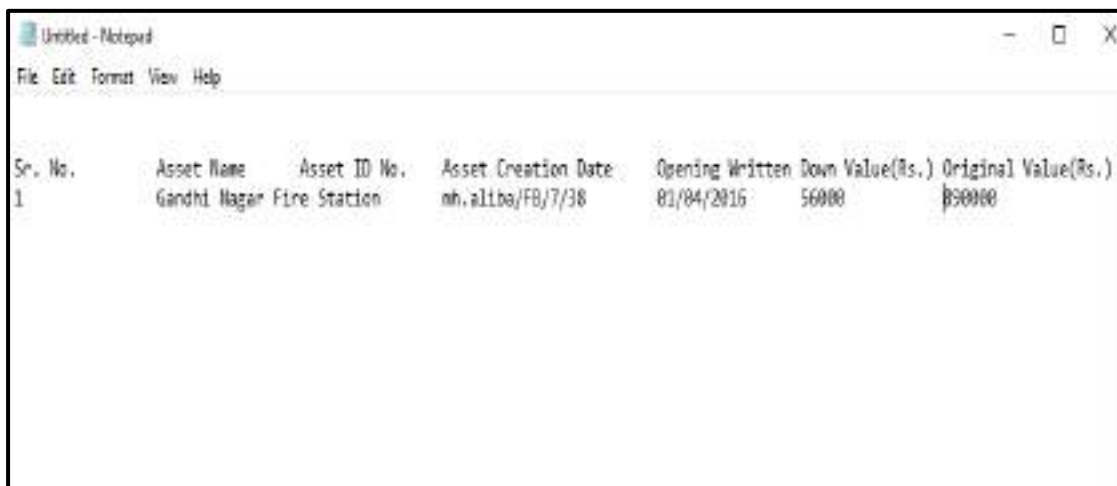

- When clicked on "**COPY**" option

Usage: This option is used to paste the copied text in any editor (Word/paint/ Notepad etc.) of userchoice

Below screen is displayed when clicked on copy option

I have copied the entry and pasted the same in "notepad", Below is the Notepad image for reference

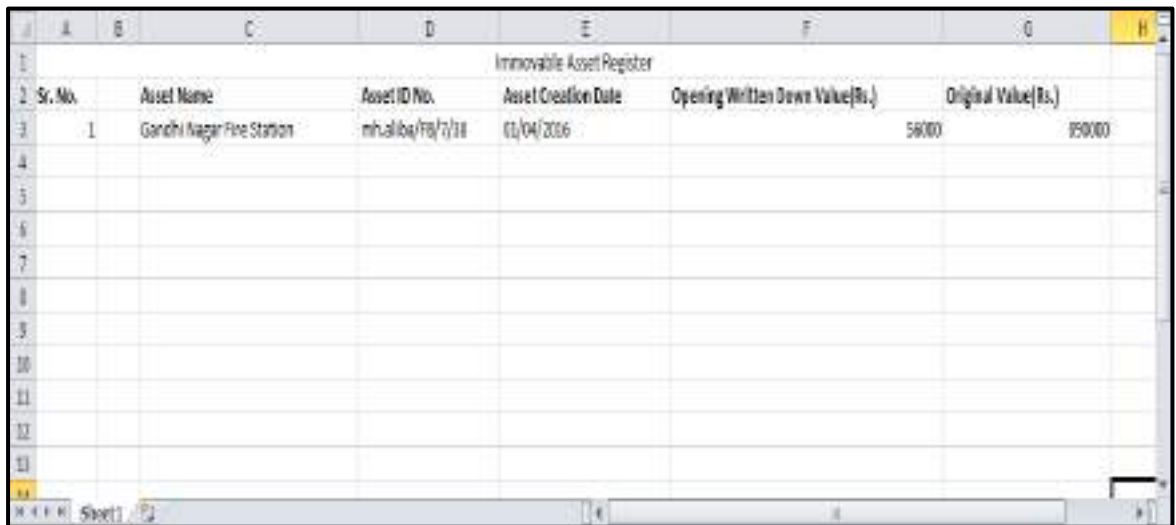

- When clicked on **"CSV"** option

Usage: This option is used to fetch the report with ".csv" extension as below

	A	B	C	D	E	F	G	H
1	Sr. No.	Asset Name	Asset ID No.	Asset Creation Date	Opening Written Down Value(Rs.)	Original Value(Rs.)		
2	1	Gandhi Nagar Fire Station	mh.aliba/FB/7/38	01-04-2016	56000	89000		
3								
4								
5								
6								
7								
8								
9								
10								
11								
12								
13								

- When clicked on **"EXCEL"** option

Usage: This option is used to fetch the report in excel

Sr. No.	Asset Name	Asset ID No.	Asset Creation Date	Opening Written Down Value(Rs.)	Original Value(Rs.)
1	Gandhi Nagar Fire Station	mhalibq/rb/7/11	01/04/2016	58000	950000

- When clicked on **"PDF/Print"** option

Usage: This option is used to fetch the report in PDF format

Sr. No.	Asset Name	Asset ID No.	Asset Creation Date	Opening Written Down Value(Rs.)	Original Value(Rs.)
1	Gandhi Nagar Fire Station	mhalibq/rb/7/11	01/04/2016	58000	950000

If user want to print the details of the report then first user have to select the entry by clicking the check box, If there are multiple entries present and user wish to print all of them for achieving the same user need to click the check box beside the "Sr. No" column.

On clicking the check box, Print details button will be enabled by the system. Refer below screen

The screenshot displays the 'Generate Asset Register Report' form and the resulting report table. The form includes fields for 'Asset Category' (Building), 'Asset Sub Category' (Fire Station), 'Department' (Fire Brigade Dept...), 'Asset Status', 'Asset Name', 'Expenditure Period (To/From)', 'Register Status (Active/Inactive)', 'Group Code', and 'To Date'. A 'Generate Report' button is located below the form.

The report table shows the following data:

Sl. No.	Asset Name	Asset Status	Asset Category (Cat)	Expenditure Period (To/From)	Original Register
1	Sanjay Nagar Fire Station	Active	Fire Station	2020-2021	100000

Below the table, there is a 'Print Details' button, which is highlighted with a red arrow.

Below report is displayed when clicked on "**Print Details**" button

[illegible]

Below page opens when clicked of printPrint alignment is not proper

7.2 Movable Asset Register

System provides facility to print movable asset register with search by date, asset code, asset name etc.

Follow the path: Department login→ Asset Management (On clicking grid option in left)→ Asset Reports → Movable Asset Register

Below mentioned screen appears when clicked on “**Movable Asset Register**”

The screenshot shows the 'Movable Asset Register' form. On the left is a sidebar with 'Quick Actions' and a menu including 'Movable Asset Register'. The main form area has the following fields:

- Asset Category (dropdown)
- Asset Sub Category (dropdown)
- Department (dropdown)
- Asset Id No (text input)
- Asset Name (text input)
- Original value of Asset from (Rs.) (text input)
- Original value of Asset To (Rs.) (text input)

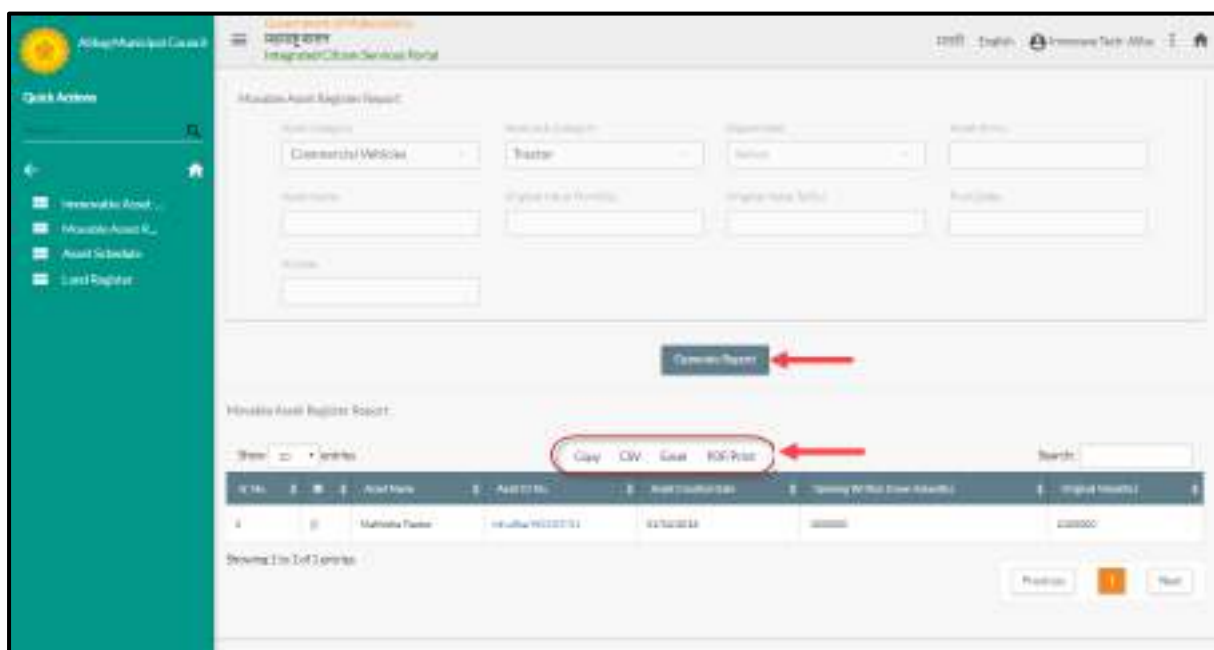

A red arrow points to the 'Generate Report' button at the bottom right of the form.

Note: All parameters are not mandatory for searching an asset, user can select as per the preference, below is the description of each field

Sr. No	Field Name	Description
1.	Asset Category	Select the Asset Category from the dropdown(Commercial Vehicles/Other Vehicles/Office Equipment's, computers & peripherals/Furniture & fixtures/ Intangible Assets)
2.	Asset Sub Category	Select the Asset Sub Category from the dropdown. Asset Sub Category will be on selection of Asset Category (for example if we select "Commercial Vehicles" asset category than the value present in the dropdown of "Asset Sub Category" will be (buses/dumpers/tipper/tractor etc.)
3.	Department	Select Department from the dropdown (Accounts/ Asset/ Election/ Computers etc.)
4.	Asset Id No	Enter "Asset ID No."
5.	Asset Name	Enter "Asset ID Name"
6.	Original value of Asset from(Rs.)	Enter "Original value of Asset from(Rs.)"
7.	Original value of Asset To	Enter "Original value of Asset To(Rs.)"

	To(Rs.)	
8.	From Date	Select "From Date" from date picker or enter the date manually
9.	To Date	Select "To Date" from date picker or enter the date manually

Select/Enter required Parameter and Click on "**Generate Report**" button for generating Immovable Asset Register report. Now when clicked on generate report button, all the matching records of assets present in the system as per the entered parameter will be displayed in the grid below. Please refer below screen

User can directly save the entry on clicking the four option viz. Copy, CSV, Excel, PDF/Print as shown in "Immovable Asset Register" section.

[click here to view the screens of above mentioned four options](#)

If user want to print the details of the report then first user have to select the entry by clicking the check box, If there are multiple entries present and user wish to print all of them for achieving the same user need to click the check box beside the "Sr. No" column.

On clicking the check box, "**Print Details**" button will be enabled by the system. Refer below screen

The screenshot shows the 'Movable Asset Register Report' page. The sidebar on the left has a 'Quick Actions' section with a search icon and a list of actions: 'Movable Asset...', 'Movable Asset R...', 'Asset Schedule', and 'Land Register'. The main content area has a header with 'Movable Asset Register Report' and a search bar. Below the header are several input fields for filters: 'Asset Category' (set to 'Commercial Vehicles'), 'Asset Sub Category' (set to 'Tractor'), 'Registration' (set to 'India'), 'Asset ID No.', 'Asset Name', 'Original Invoice Price (Rs.)', 'Original Invoice No.', 'Asset Date', 'To Date', and 'From Date'. A 'Generate Report' button is located below the filters. The report table has columns: 'Sl. No.', 'Asset Name', 'Asset ID No.', 'Asset Category', 'Registration', 'Original Invoice Price (Rs.)', and 'Original Invoice No.'. The table shows one entry with 'Sl. No.' 1, 'Asset Name' 'Commercial Vehicle', 'Asset ID No.' 'INDIA/2018', 'Asset Category' 'Tractor', 'Registration' 'INDIA/2018', 'Original Invoice Price (Rs.)' '100000', and 'Original Invoice No.' '200000'. Below the table is a 'Showing 1 to 1 of 1 entries' message. At the bottom right, there are 'Previous', 'Next', and 'Print Details' buttons. A red arrow points to the 'Print Details' button.

Asset Sub Category will be on selection of Asset Category (for example if we select "land" asset category than the value present in the dropdown of "Asset Sub Category" will be open land/open space/ Dumping ground/ playground/ open theatre etc.)
3.	Department	Select Department from the dropdown (Accounts/ Asset/ Election/ Computers etc.)
4.	Asset Id No	Enter "Asset ID No."
5.	Asset Name	Enter "Asset ID Name"
6.	Original value of Asset from(Rs.)	Enter "Original value of Asset from(Rs.)"
7.	Original value of Asset To(Rs.)	Enter "Original value of Asset To(Rs.)"
8.	From Date	Select "Asset created date from" from date picker or enter the date manually

9.	To Date	Select "Asset created date To" from date picker or enter the date manually
----	---------	--

Select/Enter required Parameter and Click on "**Generate Report**" button for generating Immovable Asset Register report. Now when clicked on generate report button, all the matching records of assets present in the system as per the entered parameter will be displayed in the grid below. Please refer below screen

You can directly save the entry on clicking the four option viz. Copy, CSV, Excel, PDF/Print as shown in "Immovable Asset Register" section.

[click here to view the screens of above mentioned four options](#)

If user want to print the details of the report then first user have to select the entry by clicking the check box, If there are multiple entries present and user wish to print all of them for achieving the same user need to click the check box beside the "Sr. No" column.

On clicking the check box, "**Print Details**" button will be enabled by the system.

The screenshot displays the 'Land Register Report' interface. At the top, there's a header for 'Aurangzeb Municipal Council' and 'Integrated Citizen Service Portal'. The left sidebar contains navigation links: 'Quick Actions', 'Immovable Asset', 'Movable Asset R...', 'Asset Schedule', and 'Land Register'. The main area has a 'Land Register Report' section with filters for 'Asset Category' (Land), 'Asset Sub Category' (Subsoil), 'Report Month' (March), and 'Asset Status'. Below these are fields for 'Asset Name', 'Original/Current Property No.', 'Original/Current Volume', and 'Price Code'. A 'Generate Report' button is present. The report table below shows columns: 'Sl. No.', 'Asset Name', 'Asset No.', 'Asset Creation Date', 'Original/Current Volume', and 'Original Volume'. Two rows are visible, both with 'Open Space' as the asset name. The first row has 'Open Space Number' as the asset number, and the second row has 'Subsoil Number' as the asset number. A red arrow points to the 'Print Details' button at the bottom right of the table.

Sl. No.	Asset Name	Asset No.	Asset Creation Date	Original/Current Volume	Original Volume
1	Open Space Number	Subsoil Number 01	04/04/2018	700000	300000
2	Subsoil No	Subsoil Number 01	14/02/2017	200000	800000

Below report is been displayed when clicked on "Print Details" button

7.4 Asset Schedule

System provides facility to print asset summary which can used as a part of schedule to asset and accumulated depreciation.

Follow the path: Department login→ Asset Management (On clicking grid option in left)→ Asset Reports → Asset Schedule

Below mentioned screen appears when clicked on “**Asset Schedule**”

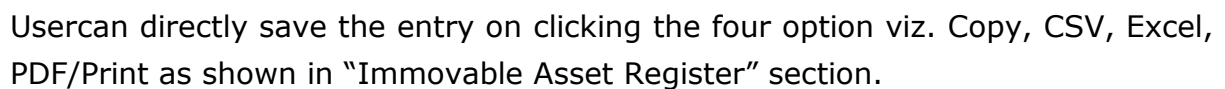

The screenshot shows the 'Asset Schedule Register Report' form. On the left is a sidebar with 'Quick Actions' including 'Immovable Asset...', 'Movable Asset B...', 'Asset Schedule' (highlighted), and 'Land Register'. The main form area contains several dropdown and text input fields: 'Asset Category Type', 'Asset Category', 'Asset Sub Category', 'Department', 'Asset ID No', 'Asset Name', 'Original Date From To', 'Original Value To', 'Asset Code', and 'FY Date'. At the bottom right, there is a 'Generate Report' button, which is pointed to by a red arrow.

Note: All parameters are not mandatory for searching an asset, user can select as per the preference, below is the description of each field

Sr. No	Field Name	Description
1.	Asset Category Type	Select the Asset Category type from the dropdown (Immovable/Movable/Land)
2.	Asset Category	Select the Asset Category from the dropdown. Asset Category will be on basis of Asset Category Type (for example if we select “Immovable” asset category type than the value present in the dropdown of “Asset Sub Category” will be Building/ Electrical Installations/Infrastructure assets/ Plant and Machinery)
3.	Asset Sub Category	Select the Asset Sub Category from the dropdown. Asset Sub Category will be on selection of Asset Category (for example if we select “building” asset category than the value present in the dropdown of “Asset Sub Category” will be School/gym/mall/hospital/fire station etc.)

4.	Department	Select Department from the dropdown (Accounts/ Asset/ Election/ Computers etc.)
5.	Asset Id No	Enter "Asset ID No."
6.	Asset Name	Enter "Asset ID Name"
7.	Original value of Asset from(Rs.)	Enter "Original value of Asset from(Rs.)"
8.	Original value of Asset To(Rs.)	Enter "Original value of Asset To(Rs.)"
9.	From Date	Select "Asset created date from" from date picker or enter the date manually
10.	To Date	Select "Asset created date To" from date picker or enter the date manually

Select/Enter required Parameter and Click on "**Generate Report**" button for generating Immovable Asset Register report. Now when clicked on generate report button, all the matching records of assets present in the system as per the entered parameter will be displayed in the grid below. Please refer below screen
